

# *Redefining* **FIRST AID**

**NORTH AMERICAN RESCUE®**

PUBLIC ACCESS BLEEDING CONTROL KITS | ANSI WORKPLACE INJURY KITS

COMMUNITY  
PREPAREDNESS

3 to 5  
MINUTES

### ***The Difference between Life and Death***

- ▶ A victim who is bleeding can quickly die BEFORE professional emergency responders can even arrive on the scene
- ▶ Serious bleeding accounts for 35% of prehospital deaths from traumatic injuries
- ▶ Life-threatening bleeding warrants immediate intervention
- ▶ Basic bleeding control provided by bystanders can often be the difference between life and death...

# Every Second Counts...

**NORTH AMERICAN RESCUE®**

www.NARescue.com • 888.689.6277

Trauma is a national health problem and after a traumatic injury, bleeding is responsible for over 35% of pre-hospital deaths. Examples of trauma include traffic & industrial accidents, natural disasters, falls, accidental injuries and intentional acts of violence such as shootings, stabbings and bombings.

These types of injuries often result in uncontrolled bleeding. Without immediate intervention these injuries can result in death within minutes – even before emergency medical services or other first responders can arrive.

## ***North American Rescue***

is leading the way to equip bystanders and initial first responders with the essential medical gear needed to take immediate action in life threatening emergencies. These lifesaving modular aid components are designed for individuals or groups in the workplace, public buildings, and populated public areas to administer immediate bleeding control at the point of wounding.

***Death from  
Uncontrolled  
BLEEDING  
can occur  
in as little as  
3 to 5 Minutes***

## Public Access **INDIVIDUAL BLEEDING CONTROL KITS**

### Nylon Bag Option:

- Easy to restock in cases of use
- Convenient to carry and easy to open in stressful situations
- Opens flat for ease of use and immediate identification of enclosed devices
- Easily recognizable red nylon bag with attached PVC Bleeding Control ID Patch

### Vacuum Sealed Option:

- Cost-effective alternative to Nylon
- Compact and rugged Vacuum-Sealed pouch
- Large Identifying Card Vacuum-Sealed inside the pouch for ease of identification

### SPECIFICATIONS

Nylon Bag: H 7 in. x W 5 in. x D 2.5 in.

Vacuum Sealed: H 7 in. x W 5 in. x D 2.75 in.

**Essential equipment needed  
for persons to take action  
as immediate responders in  
helping to stop life threatening  
bleeding in Public Areas...**

### PVC **BLEEDING CONTROL PATCH**

- Soft flexible PVC rubber patch for labeling your lifesaving medical gear
- Ideal for the Public Access Bleeding Control Kit or any surface with an area for hook-&-loop attachment
