PRODUCTS

WITH A **MISSION**®

ICONS

BAA: Compliant with the Buy American Act mandating a product is "domestically manufactured from substantially all domestic content".

TAA: Compliant with the Trade Agreements Act mandating that a product is made in the United States or a "Designated Country"

CE: Meets the requirements of the European Medical Device Directive and appropriate Quality System standards

LATEX FREE: Product is not made with natural rubber latex, and is safe for latex sensitive individuals

STERILE: Product is sterile - sterility guaranteed unless packaging is opened or damaged

PRESCRIPTION DEVICE: Federal law restricts this device to sale by or on the order of a physician

RED TIP TECHNOLOGY®: Specifically branded with NAR's signature Red Tip Technology® packaging. Product packaging has been engineered for less-than-optimal, often hostile conditions that exist when our equipment is needed the most

Table of Contents

Volume 20 • Issue 2

M.A.R.C.H. Products

Products designed to address Massive Hemorrhage, Airway Management, Respiratory Support, Circulation/Vascular Access and Hypothermia Prevention

4

Combat Casualty Response Kits • CCRK®

Kits designed to meet the needs/challenges of our customers and to address the leading causes of potentially preventable death

30

DoD Bleeding Control Response Kits • D-BCRK

Individual kits, packs and stations designed to equip bystanders and first responders with the essential medical gear needed to help save lives

70

TAC-EVAC

The most effective and highest quality evacuation platforms and accessories for use in the tactical environment

76

Medical/Surgical Products

Medical and surgical equipment for use in austere environments, during prolonged field care situations and in forward operating field hospitals

84

Rescue Equipment

Includes an array of rescue products ranging from lightweight, versatile Pegasus® Ropes to tactical lights and accessories

98

Treatment Support

From personal protection products to splinting and immobilization products to help from the point of injury throughout the entire continuum of care

116

Training Products & Services

NAR Training Course Overview • Products designed to train users on TCCC protocols to reduce preventable death at the point of wounding

MAKE THE RIGHT CHOICE!

THE **C-A-T**® TOURNIQUET IS THE **FASTEST, SAFEST, MOST EFFECTIVE** PREHOSPITAL FIELD TOURNIQUET IN THE **WORLD!**

1 Single Routing Buckle

- Simplifies effective slack removal
- Allows for faster application which helps decrease blood loss

2 Windlass Strap

- Hook & loop for quick attachment
- Keeps windlass secure after application
- Tactical gray, easily visible location to record time of application

3 Windlass Clip

- Rapid windlass lock from either side
- Durable construction keeps windlass secure

4 Stabilization Plate

- Reinforced, beveled contact bar provides stable pressure under windlass

5 Windlass Rod

- Large diameter for strength
- Aggressive ribbing for better grip
- Twist for additional tightening of the tourniquet to stop bleeding

6 Red Tip Technology®

- Red elliptical tip
- Easily feeds through buckle

7 Free-moving Internal Band

- Evenly distributed pressure stops bleeding safer by requiring less force
- Minimizes friction during application

DON'T RISK LIVES WITH COUNTERFEITS!

CHOOSE THE GENUINE C-A-T® TOURNIQUET

AAJT-S *Abdominal Aortic and Junctional Tourniquet -Stabilized*

- Easy to use and quick to apply – Lightest, most compact junctional tourniquet on the market
- Stabilizes the pelvis in addition to stopping bleeding
- Large area of effective pressure for greater reliability
- Provides stable and complete occlusion of blood flow to the lower extremities, upper extremities, or pelvis
- Can be applied at junctional sites (inguinal, axillary) or mid-abdomen
- Demonstrated ability to remain in place and effective during patient movement
- Similar hemostatic efficacy to Zone 3 REBOA¹
¹Rall, Jason M., et al. "Comparison of Zone 3 Resuscitative Endovascular Balloon Occlusion of the Aorta and the Abdominal Aortic and Junctional Tourniquet in a Model of Junctional Hemorrhage in Swine." *Journal of Surgical Research*, vol. 226, 2018, pp. 31–39.
- Lower training burden compared to REBOA procedure

CELOX™ Z-FOLD Hemostatic Gauze

- Celox™ blood clotting products have very high surface area chitosan flakes
 - When they come in contact with blood, Celox™ swells, gels, and sticks together to make a gel like plug
- Celox™ blood clotting agent does not set off the normal clotting cascade, it only clots the blood it comes directly into contact with

no flash chamber cap for immediate air release

Catheter Hub
color coded to meet ISO Standards for easy identification of corresponding gauge size (light brown for 10ga & orange for 14ga)

10ga (or 14ga) 3.25-inch Flexible Catheter to decrease incidence of catheter kinking, in concert with modified insertion recommendations from leading experts in pulmonology, critical care, emergency medicine, and trauma surgery.

Centimeter Markings
(with contrasting colors that are NVG compatible) for safer placement utilizing "thoracic depth control"

"It's time to rethink needle decompression techniques and device characteristics to optimize success"

SPECIFICATIONS

SPEAR™ Simplified Pneumothorax Emergency Air Release

- Latest innovation in Needle Decompression technology
- Designed based on known gaps in the management of tension pneumothorax
- Enhanced needle tip for improved insertion control
- User friendly features like spin-lock connection, depth markings, and detachable low-pressure one-way valve
- Fenestrations along catheter for additional air flow
- Familiar, rugged, pen-style case for ease of storage and deployment
- Allows for either lateral decompression or anterior needle thoracostomy
- Catheter made of flexible, kink-resistant material with a soft tip

SPECIFICATIONS

Packaged: L 7.625 in. x Diameter 0.75 in.
Catheter: 10Ga x 3.75 in.

LifeFlow® FLUID INFUSER

- Hand-operated, rapid infusion device that allows health care providers to deliver fluids quickly and effectively
- Deliver 500ml of fluid in less than 2 minutes through a 20G IV catheter
- Designed to protect the syringe from bacterial contamination
- Can be operated with one hand

SPECIFICATIONS

12 in. x 7.5 in. x 2.75 in.
Weight: 0.95 lb

LIFEFLOW INFUSER

ITEM #	NSN #
30-0286	---

LifeFlow®

VOLUME RESUSCITATION.
WHEN MINUTES MATTER.

Clear Canopy™
Syringe is protected from contact & bacterial contamination during use

Air Check™
makes priming and setup easier and will stop the flow of fluid if air enters the system

Fast and Accurate
10ml of fluid with each pull

Force Reducer™
smooths the pulsatile flow, reducing the amount of effort required by the user

Improve Resuscitation Workflow with LifeFlow®

> RESUSCITATE

**500 ml in < 2 minutes
Stay with Your Patient**

Deliver first bolus quickly to reverse hypotension in patients with shock

- Provide active resuscitation
- Maintain control over delivery

> RESTORE

**Improve Perfusion /
Reverse Shock**

Assess using vitals & bedside markers of perfusion, decide if additional fluid bolus is needed.

Early fluids more rapidly reverse shock & **improve outcomes**¹⁻³

> REASSESS

Rapid Decision / Disposition

Each bolus delivered provides an opportunity to evaluate and determine next steps.

Faster resuscitation may lead to:

- Less mechanical ventilation⁴
- More rapid disposition
- **Less donning/doffing of PPE**

LifeFlow® PLUS BLOOD & FLUID INFUSER

- Hand-operated, rapid infusion device that allows health care providers to deliver fluid & blood products quickly and effectively
- Deliver 500ml of fluid in less than 2 minutes through a 20G IV catheter
- Deliver 1 unit of whole blood in 2 minutes
- Goes from the field to the hospital
- Can be operated with one hand
- Handle and tubing packaged together for quick and easy set-up
- Designed to protect the syringe from bacterial contamination
- Average time to set up and prime: less than 3 minutes

SPECIFICATIONS

12 in. x 7.5 in. x 2.75 in.
Weight: 0.95 lb

IV Fluid & Blood Warming System

- **Lightweight** The Quantum™ has the lightest operational weight of any portable blood & fluid warming system (Total Operational Weight: 22 oz)
- **Powerful** Warms two units of 39°F refrigerated whole blood at 100mL/min+ on a single charge
- **Compact** Fewest components to carry (three)
- **Fast** Warm-up time of only 24 seconds
- **Intuitive** The thermal transfusion/infusion set looks, handles, and sets up/primes like any conventional IV set
- **Safe** Tested safe for blood, blood products & IV solutions
- **Effective** The system is plug-and-play for ease of setup under stressful conditions such as tactical field care (only two connection points, with no plug orientation or set-up order requirements – system status constantly visible at a glance)
- **Complete** Does not require additional standard transfusion or infusion set – all other warmers do
- **Tactical** Only system FDA cleared allowing easy disable of audible alerts to protect operators in combat

Quantum™ Field Blood Transfusion Kit

- Comprehensive kit designed for use with the Quantum Blood & Fluid Warming System allowing rapid, consistent normothermic field blood transfusion in far forward and near point of injury (POI) prehospital casualty management.
- Includes the Quantum Thermal Transfusion Set - (Blood) that incorporates an integrated heating system that does not disrupt the fluid path
- Equipped with Donor/Recipient Modules to verify blood types of the donor and recipient
- Also allows collecting of blood samples from the donor for additional surveillance testing

QUANTUM FIELD BLOOD TRANSFUSION KIT CONTENTS:

 QTY 1 Quantum TTS-B Set	 QTY 1 Donor Module Kit	 QTY 1 Recipient Module Kit	 QTY 1 Single Blood Bag	 QTY 1 550 Cord 10 in.
 QTY 1 6.5" Marked Beaded Cord	 QTY 1 5.5" Kelly Hemostat (Disposable)	 QTY 1 Surgical Tape, 1 in.	 PAIR 2 Bear Claw Gloves, Lg Tan	 QTY 1 Permanent Marker, Large
				 QTY 1 572-EWB ASBP Card

Each Donor Module Kit contains:

 QTY 1 21ga Eclipse Vacutainer Holder	 QTY 4 5mL Purple Top Vacutainer	 QTY 2 5mL Red Top Vacutainer	 QTY 1 450mL Blood Bag (Single)	 QTY 1 Blood Bag Sticker	 QTY 1 550 Cord 10 in.	 QTY 1 6.5" Marked Beaded Cord	 QTY 1 Constricting IV Band	 QTY 2 NAR Alcohol Prep Pad
 QTY 2 4" x 4" Gauze Pad (2pk)	 QTY 1 4" x 5" Clear Film Dressing	 QTY 2 Swabsticks, Antimicrobial	 QTY 1 5.5" Kelly Hemostat (Disposable)	 PAIR 1 Bear Claw Gloves, Lg Tan	 QTY 1 Surgical Tape, 1 in.	 QTY 1 572-EWB ASBP Card	 QTY 1 Permanent Marker, Large	 QTY 1 Donor Placard

All the needed supplies to allow the user to rapidly perform a field blood transfusion as outlined in the **Joint Theater Trauma System Clinical Practice Guidelines**

Each Recipient Module Kit contains:

 QTY 1 IV Catheter 16ga x 1.25"	 QTY 1 IV Catheter 18ga x 1.25"	 QTY 1 Constricting IV Band	 QTY 1 Y-Type IV Set w/ Filter	 QTY 1 Eldon Card	 QTY 1 4" x 5" Clear Film Dressing	 QTY 2 4" x 4" Gauze Pad (2pk)

CUSTOMIZABLE SOLUTIONS

*...fulfilling YOUR
complete Medical & Material
logistics requirements!*

KITS

North American Rescue® is **THE market leader** for designing, producing, integrating and assembling tactical field medical sets and kits **supporting the services of the Department of Defense, federal agencies** as well as **state and local law enforcement**.

Over the past several years, our ability to provide rapid response products and services has aided in the delivery of critical battlefield medical care when and where it's needed most with an **end result of saving more lives**.

A comprehensive list of supply chain services affords a unique opportunity to North American Rescue®'s customers in the procurement, assembly, storage and management of their **complete medical and material logistics** requirements. NAR® maintains a 75,000 square foot warehouse facility which consists of 50,000 square feet for receiving and distribution staging and an additional 14,000 square feet solely dedicated to the assembly room where sets, kits and **custom medical solutions are built to order**.

Highly qualified logistics and warehouse staff ensure that orders, inventory and distribution processes **maintain the superior quality standards** associated with the North American Rescue brand. Our integral partnership with the South Carolina Vocational Rehabilitation **NISH Partner** is a pillar in the successful execution of these processes.

M-FAK LCL *Mini First Aid Kit* (Laser Cut Laminate)

TORK® LCL

KIT CAPABILITIES INCLUDE:

The NEW Tactical Operator Response Kit (TORK® LCL) is designed to meet the need for a compact individual first aid kit carrying basic life support equipment, in order to address leading causes of potentially preventable death in a tactical environment. Now featuring Laser Cut Laminate (LCL) MOLLE.

- Essential life-saving tools to address injuries caused by penetrating or blast trauma
- Compact Individual First Aid Kit (IFAK) providing Basic Life Support for immediate Self-Aid/Buddy-Aid
- Includes the added advantage of a hemostatic dressing for extra capability in the control of life threatening bleeding
- The LCL TORK® is double-spaced for the MOLLE attachment points on the rear of the bag for maximum adjustability and super secure mounting to any platform
- Also attaches to NAR's Quick Detach Panel (sold separately)
- Signature Red-Tip Technology® rapid opener for fast and easy, one-pull tab opening of the kit.

VSCAN AIR™ Wireless Handheld Ultrasound

SEE MORE. TREAT FASTER. Make Clinical decisions by quickly ruling in or out a wide variety of conditions, without compromising image quality for portability.

- **Wireless**
Dual-sided probe connects to your mobile device* to provide maximum portability
- **Whole Body Scanning**
- **Crystal Clear images**
SignalMax™ technology grants the power of a high-performance ultrasound machine in a small, wireless solution
- **Easy to Use App**
Intuitive navigation optimized for your mobile device*
- **Dual-Sided Probe**
Complete both deep and shallow exams with a simple flip without compromising image quality
- **Durable**
Withstands everyday handling from scratches to drops and even a rainstorm**
- **Battery**
Provides up to 50 min scan time before recharge
- **Recharge time**
75 min (from 10% to 90%)
- **Worry Free**
3-Year Warranty from GE

SPECIFICATIONS

Device Dimensions :
H 5.2 in. x W 1.6 in. x D 1.2 in.
(13.1 cm x 4 cm x 3.1 cm)

microMend[®] PRO

Skin Closure Devices

- Easy-to-use alternative to sutures or surgical staples when skin closure is required
- Safe, secure, and rapid skin closure
- Equivalent holding strength to sutures
- Patent pending microstaples anchor the device to the skin
- Three times faster to apply than sutures
- More comfortable and easier to remove than standard invasive methods of skin closure
- Can be used on a variety of lacerations and incisions and with wounds of various lengths, as the product can be applied right next to each other

STEP 1:

Remove device from packaging by pulling TAB upwards

STEP 2:

Position device so the edge of narrow section on the TAB-side is over wound. Press MICROSTAPLE-side onto skin.

STEP 3:

Pull TAB-side across the wound. Press MICROSTAPLE of tab-side down onto skin. Remove the tab with a twist.

SPECIFICATIONS

Large

Device: 43mm x W 12mm
Box Wt.: (24) 3.5 oz

Medium

Device: L 28mm x W 12mm
Box Wt.: (24) 3.5 oz
(48) 7.1 oz

Device: L 38mm x W 28mm
Box Wt.: (24) 7.3 oz

Wide S

Device: L 38mm x W 28mm
Box Wt.: (24) 7.3 oz

LARGE: For closing larger wounds on the extremities, back, chest, and abdomen. Great for closing hard to repair skin tears

MEDIUM: Broadest application for closing most wounds. It is used for closing most lacerations (face, neck, and hands)

SMALL: Ideal for small areas, such as the fingers, toes, ears, and nose

microMend[®] Wide

- Three times wider for easier and faster closure of longer incisions with the same holding strength as other microMend sizes
- Ultra-flexible and elastic making it ideal for use in joint surgeries, Cesarean sections, and other procedures in areas of increased movement and varying skin architecture
- Available with apertures (Wide A) to allow drainage, or without apertures (Wide S) for a solid seal to keep the wound clean from contaminants

Available with Aperture or Solid Seal

DENTAL EMERGENCY RESPONSE KIT

ITEM #	DESCRIPTION
80-1180	Case Only
80-1181	DER Kit

DENTAL EMERGENCY RESPONSE KIT CONTENTS:

- | | |
|--|--|
| 1 X ACCU Film 11 DS | 3 X Dental Operative Kit – Sterile |
| 1 X Dental Fuji IX Cement | 2 X Dental Scaler Kit – Sterile |
| 1 X Cavity Dycal Liner | 1 X Meriam Forceps – Sterile |
| 2 X Dental Roll Braided Sponge – 3/8" X 1.5" | 5 X Oral Exam Disposable Pack 3-in-1 |
| 1 X Fractured Tooth Detector – Pack of 4 | 1 X Tofflemire Matrix Band – Pack of 36 |
| 1 X Wedge Sycamore Set | 1 X Dental Tofflemire Retainer – Sterile |
| 1 X Dental Aspirating Syringe – Sterile | 1 X Dental Mixing Pad 3" X 3" |
| 1 X Dental Needle – 27 GA 5 Pack - Sterile | |

DENTAL TOFFLEMIRE RETAINER *Sterile*

- Permits accurate trimming of wider bands
- Easy insertion and adjustment; handles any width band
- Contra-Angle can be used buccally and lingually

SPECIFICATIONS

Each: L 7 in. x W 2.75 in.
Weight Each: 0.016 oz
Weight 10-Pack: 4.8 oz

PEGASUS ROPE®

8MM HAVOC Assault Rope

Innovative Synergy of 2 unique Fibers engineered for unmatched Confidence & Resilience from Ropes in Challenging Environments

North American Rescue & Edelrid, the industry leader in rope manufacturing with 150 years of experience, have joined forces with multi-disciplinary vertical specialists to innovate the **most tenacious small diameter rope on the market today** – engineered to counter the most severe environmental pathologies found throughout full-spectrum operations... whether at work or at play.

The unique material engineering of the 8mm HAVOC core, specifically it's **Innegra™ Braided Fiber Core Integration**, provides **superior durability, low fatigue** properties, an **extremely low specific gravity**, and **superior resistance to the harshest contaminants** (acids, bases, and organic solvents). The novel tensioning and fiber refinement techniques utilized within the **12-braid Innegra™ core amplifies its overall robustness** and resilience providing an operational rope which acts as a counter-measure to anticipated environmental challenges.

This specialized core of the 8mm HAVOC is protected by a higher density, precision double braided **Technora sheath** to synergistically interface with the core for **optimized strength, elongation, decreased creep, heat resistance**, and **operational safety**. To reinforce the **abrasion resistance, cut resistance**, and **overall durability**, the 8mm HAVOC's sheath was bulked up to a **52% sheath ratio**.

EDELRID

in partnership
with

NORTH AMERICAN RESCUE®

Engineered to counter the pathologies innate to the following environments and/or mission sets:

- **Mountain/Rough Terrain Movement & Evacuation**
- **Urban Access, Extraction, & Rescue**
- **Waterborne/Maritime Access & Rescue**
- **Cave/Subterranean Response**
- **Snow/Ice Rescue**
- **Shipboard Response, Rescue, & Evacuation**
- **Canyon Movement & Rescue (Class B & C)**
- **Confined Space Rescue**
- **Wilderness SAR**
- **Wildland REMS**

Wreak HAVOC with Confidence!

ROPES

WARHORSE™ SERIES

100% Innegra™ fiber braided core

- High quality, multipurpose rope
- Static rope provides reliability, high performance and great handling
- Excellent knot-ability with high strength-to-weight ratio
- Low stretch/sheath slippage – wet, dry or in any other climatic condition
- Ultra-lightweight, strong Innegra™ core for reliable strength, durability & flotation
- Properties remain unchanged even when wet, dry or contaminated with chemicals
- Low dielectric and UV stable

R.A.C.E. SYSTEM Rapid Access Casualty Extraction

- Lightweight, multiple use casualty evacuation system enabling first responders/medical providers to ascend, descend, hoist & lower both rescuer & casualty to safety
- Combines 150 ft of lightweight durable 9.5 mm Olympus Pegasus Rope® with the latest in lightweight multipurpose hardware
- Capable of rigging 2:1, 3:1, 4:1, 5:1, 6:1, and 9:1 systems in different configurations for a wide variety of rescuer options with fully illustrated instruction booklet
- Front pocket allows for optional storage
- Carriage options include 4 Point, D-ring configurable modified side and/or backpack carry-style adjustable strap

HELO TAGLINE KIT

- **Help control litter movement during hoist operations** - a requirement on all Army MEDEVAC helicopters
- Contains 250 ft of 7.5 mm Triton Pegasus Rope® featuring a highly visible polypropylene sheath with an Innegra™ core

HELO TAGLINE KIT CONTENTS:

A-VRR *Adaptable Vertical Response Rack Kit*

The Adaptable Vertical Response Rack was designed meet and exceed full-spectrum operational vertical requirements for urban through mountain / canyon access, rescue, and evacuation variables. The kit capabilities were driven utilizing NFPA 1006 (Operations & Technician Level) JPR's and the KPP's (Key Performance Parameters) within the USSOCOM SOF CASEVAC Program framework. The A-VRR Kit's organic versatility allows it to be scaled up to meet all relevant job performance requirements (JPR's) for complex team access and/or rescue or be scaled down for a "fast & light" mission specific assault configuration.

P-A-C-E methodology was engineered throughout the kit design, enabling multiple options for progressive capture and rope grab capabilities depending on the environmental pathology.

SPECIFICATIONS

Packaged: 12 in. x 15 in.
Weight: 3.25 lb

A-VRR

ITEM #

90-5000

- Haul / Mechanical Advantage Capability – Multiple simple, compound and complex configurations ranging from a 2:1 through 9:1
- Full spectrum Friction Configurations for Rappels, Bail-outs, And One or Two Person Lowering Systems
- Traditional and MA-assisted Ascending Techniques
- Multiple Basic and Anchor Configurations to Include Contingency and Releasable Systems
- Load Transfer Capabilities to include Knot Passing on Rappel and within a system and casualty Pick-Offs

A-VRR KIT CONTENTS:

R.A.C.E. SUB-T Rapid Access Casualty Extraction Subterranean Kit

Specifically designed for full-spectrum vertical operations within harsh environments

- Ultra-Lightweight Components
- Hydrophobic Software
- Innate requisite variety (redundancy)
- Easy sustainment
- HRO (High Reliability Organizing) Engineered
- Scalable based on mission context, organic assets, & end-user
- Resilient to environmental pathology
- Capability focused - up to Technician Level JPR's (Job Performance Requirements)
- Meets and exceeds operational requirements of SOF CASEVAC Program

**Subterranean
Deep Hydro | Cave
Mountain | Rough Terrain Access | Evac
Class B & C Canyon | Slot
Mountain | Jungle**

TIBLOC

Ascender/Rope Grab by Petzl®

Ultra-light Compact Ascender/Progress Capture Device for rope ascents, hauling systems or friction knot replacement in self-rescue situations

SPECS

Rope Size: 8-11 mm
Weight: 1.23 oz (35 g)

ITEM

ZZ-0547

ROPE GRAB PULLEY-SPOC

by Edelrid®

Ultra-light pulley designed for lifting loads, crevasse rescue operations, or as an emergency ascender

SPECS

Rope Size: 7-11 mm
Weight: 2.12 oz (60 g)
Diameter Pulley: 20 mm

ITEM

90-4005

ROLLCLIP A H-FRAME

Non-Locking

Pulley-carabiner with a non-locking gate opening

SPECS

Rope: 7 to 13 mm
Major axis: 20 kN
Minor axis: 8 kN
Open gate: 7 kN
5.25 in. x 3 in. x 1.25 in.
Weight: 3.76 oz

ITEM

90-4006

PIRATE CARABINER

by Rock Exotica®

Ideal as a belay biner at the harness, or as a connector in a system

SPECS

Gate Opening: 25 mm
MBS Major: 26 kN
MBS Minor: 12 kN
MBS Open: 7 kN
H 107 mm x W 71 mm
Weight: 3.09 oz (87 g)

ITEM

90-4003

ROCKO AUTO LOCK

Carabiner by Rock Exotica®

3-stage Autolocking carabiner with intuitive pull-down and twist action

SPECS

Gate Opening: 24 mm
MBS Major: 24 kN
MBS Minor: 11 kN
MBS Open: 6 kN
H 107 mm x W 71 mm
Weight: 2.88 oz (81.65 g)

ITEM

90-4001

ROCKO WIRE EYE

Carabiner by Rock Exotica®

Standard carabiner with the safety and capability of a lanyard pin, or captive eye

SPECS

Gate Opening: 22 mm
MBS Major: 24 kN
MBS Minor: 9 kN
MBS Open: 6 kN
H 107 mm x W 71 mm
Weight: 2.96 oz (84 g)

ITEM

90-4002

ROCKO NON LOCKING

Carabiner by Rock Exotica®

Non locking enhanced Oval biner with Snag-resistant keylock nose design

SPECS

Gate Opening: 25 mm
MBS Major: 22 kN
MBS Minor: 10 kN
MBS Open: 6 kN
H 107 mm x W 71 mm
Weight: 2.36 oz (67 g)

ITEM

90-4022

QUICK LINK SCREW LOCK

7mm Oval Stainless Steel Quick Link Carabiner

SPECS

Rod stock
Diameter: 7 mm
Gate opening: 16 mm
Major Axis: 25 kN
Minor Axis: 10 kN
H 3.25 in. x W 1.25 in.
Weight: 2.4 oz

ITEM

ZZ-0544

QUICK LINK SCREW LOCK

5mm Oval Stainless Steel Quick Link Carabiner

SPECS

Rod stock
Diameter: 5 mm
Gate opening: 6 mm
Major Axis: 25 kN
H 1.97 in. x W 0.98 in.
Weight: 0.7 oz

ITEM

90-4015

ALPHA FIX Y SLING

30/60 cm by Edelrid®

Y-Shaped self belay sling for edge restraint, DCD extender, knot passing on rappel, edge transition safety, & hasty pick-offs

SPECS

Load capacity: 23 Kn
CE 0123
Weight: 4.16 oz (118 gm)

*NOTE:
Not for use as a via ferrata set

ITEM

90-4021

HMPE CORD BLUE SLING

120 cm by Edelrid®

Sewn sling made of high-strength kernmantle material, ideal as a full-spectrum anchor, harness extension, alternate prusik, & canyon quickdraw for Rig to Raise conversions

SPECS

Load capacity: 22 Kn
CE 0123
Width: 0.24 in. (6 mm)
Weight: 0.78 oz (22 gm)

ITEM

90-4011

BASIC ASCENDER

by Petzl®

Compact ascender with excellent grip for rope ascent on a fixed line or as progress capture in a hauling system

SPECS

Rope Size: 8-11 mm
Weight: 3 oz (85 g)

ITEM

ZZ-0554

GRIGRI 2 BELAY DEVICE

by Petzl®

Compact, ultra-light belay device allowing excellent control during the descent with assisted braking capability

SPECS

Rope Size: 8-11 mm
Weight: 6 oz (170 g)

ITEM

ZZ-0545

MINI MACHINED PULLEY

by Rock Exotica®

Mini pulley with recessed axle screw, machined sideplates & integrated axle for a stronger, compact, snag-free profile

SPECS

Rope Size: up to 11 mm
Weight: 2.9 oz (83 g)

ITEM

ZZ-0548

REVERSO 4

Belay/Rappel device by Petzl®

Regulates the amount of braking friction on the rope according to diameter and condition

SPECS

Weight: 2.08 oz (59 g)

ITEM

ZZ-0546

TRIRIG RIGGING PLATE

by Rock Exotica®

Lightweight, high performance 3 hole rigplate with numbered holes to assist with detailed rigging

SPECS

Break Strg: 36 kN
Weight: 1.8 oz (51 g)

ITEM

ZZ-0553

ROCKD CARABINER

by Rock Exotica®

Narrow asymmetric "D" shape machined frame with snag resistant keylock nose and large, ergonomic angled gate opening

SPECS

Gate Opening: .24 mm
Weight: 2.6 oz (73 g)

ITEM

ZZ-0543

7MM VT PRUSIK

For use on personal ropes 8mm - 9.5mm in diameter

The VT Prusik is a versatile open-end Prusik. Use to tie: Symmetric Prusik, Asymmetric Prusik (Schwabisch/Distal), Valdotaian Tresse, French Prusik

SPECS

Weight: 1.6 oz.
Length: 33 in.
Diameter: 7 mm

ITEM

90-4050

FOOTAPE

Adjustable Foot Loop by Petzl®

Adjustable nylon foot loop for attachment to the BASIC rope clamp for rope ascents

SPECS

Weight: 2.3 oz (65 g)

ITEM

ZZ-0551

Rescue Knives

EDELRID

ROPE TOOTH KNIFE

by Edelrid®

- Ideal for all cutting requirements outdoors
- Perfectly suitable to shorten static lines or ropes
- Large swivel hole for attaching to harness or backpack with carabiner
- Sharp, locking blade (partly serrated)
- High-quality Stainless Steel

SPECIFICATIONS

L 3 in. x W 1 in. (closed blade)
Blade Length: 3 in.
Weight: 1.69 oz (48 gm)

POLAR SKIN™

- The latest cooling technology for effective Human Thermo-regulation
- Polar Skin Mini-Mesh,™ a unique smart textile with a hydrofunctional polymer that allows for liquid absorptive capacity 350% greater than base weight
- ArcticAqua,™ a proprietary solution that prevents rigidity at temperatures well below 0°F while providing the requisite moisture to support evaporative, convective and conductive cooling
- Adheres to current U.S. Army and National Athletic Trainers' Association protocols for heat illness treatment
- Protracted direct cooling of high blood flow regions

COMPREHENSIVE COOLING SYSTEM

- Highly-effective portable cooling system with C.O.R.E. technology for the treatment of heat-related illnesses
- Scientifically proven to reduce core temperature by .09°F/minute in 100°F heat when used according to protocol

CT-6 TACTICAL LEG TRACTION SPLINT

- Carbon Fiber Tubing: Corrosion resistant, temperature stable, extremely high strength to weight ratio, x-ray translucent.
- 4:1 Purchase Traction System makes it easy to apply ample traction for even the largest patient. The V-Jam cleat makes it easy to readjust traction, key in long transport situations. Includes safety clip to prevent accidental releases.
- The CT-6 comes out of the bag ready to go; all of the necessary parts are attached to the splint. There is no way to lose pieces, resulting in very fast application times.
- Instruction Manual: Each splint comes with its own "quick reference" two sided instruction manual that is water proof and tear resistant.

SPECIFICATIONS

Packaged - L 12 in. x W 4 in. x D 3 in.
Weight: 11 lbs

ZZ-0121

NORTH AMERICAN RESCUE®

Education and Training

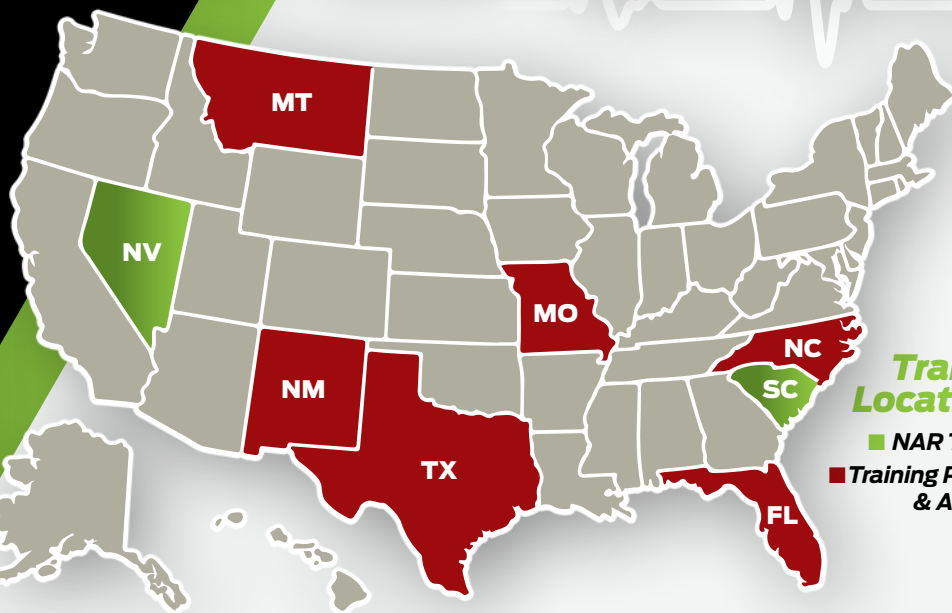

North American Rescue Education and Training (NAR Training)

has roots that run deep and wide in the world of pre-hospital medicine and technical rescue. Our team was built from the ground up on the vision and experience of seasoned military medics seeking to fill the training gaps commonly encountered in the operational environment.

Since then, we have continued to broaden our vision to include other invaluable first responder perspectives such as pre-hospital healthcare providers in civilian, law enforcement, emergency medical services and community public safety initiatives.

CORE Competencies

- Continuing Medical Education (CMEs)
- Prolonged Casualty Care
- Austere Medicine
- Technical Rescue
- Emergency Medical Services
- Critical Care Flight Medicine

Training Locations:

- NAR Training
- Training Partners & Affiliates

ACCREDITATIONS:

American Heart Association®

Now SAME DAY Cards Issued At End Of Course!

INDEX

COURSES

PUBLIC ACCESS

➤ **NAR BCON**

6-hour course oriented towards civilians; students are exposed to realistic trauma scenarios and taught how to treat major hemorrhaging injuries, receiving critical knowledge on how respond to preventable bleeding deaths prior to arrival of EMS. Stop the Bleed certification issued upon completion.

➤ **First Responder - Work Place Safety**

8-hour course designed for civilians. Students will learn CPR, bleeding control, and basic first aid to the most common workplace injuries. AHA BLS and NAR First Responder certification upon successful test completion.

➤ **Civilian Medical**

3-day medical course designed for civilians. Students will learn basic emergency medicine, med bag packing, and med supply procurement. AHA BLS and NAEMT TECC certification upon successful test completion.

➤ **First Responder - Trauma Care**

8-hour course for law enforcement and first responders that will provide students the ability and confidence to apply trauma care in the field. Upon completion of testing, students receive NAEMT TECC certification.

IBSC

➤ **NAR C3**

42-hour in-house course for IBSC critical care course certification or recertification (FP-C or CCP-C) and national registry recertification. Students will learn or refresh all skills and knowledge needed to certify/re-certify, and will earn 42 hours of IBSC and National Registry Continuing Education.

➤ **Vent Hero**

Supporting literature that provides an introduction into the theory of successful ventilation management geared towards the critical care provider and clinician responsible for managing complex patient ventilation support.

➤ **Essentials In Critical Care 4.0**

Online refresher course which exceeds the minimum requirements (above 16 hrs) for approved IBSC certifications.

NATIONAL REGISTRY

➤ **EMT Hybrid**

Self-paced, online learning designed to prepare entry-level students for National EMT testing and certification.

➤ **AEMT Hybrid**

Self-paced, online learning designed to prepare EMT students for National AEMT testing and certification.

➤ **ONLINE NREMT RECERTIFICATION**

Full EMR, EMT, AEMT, and Paramedic refresher courses for recertification.

LAW ENFORCEMENT

➤ **TECC-LE**

8-hour course specifically designed for law enforcement. Covers hemorrhage control, airway control, splinting, extraction techniques, and stop the bleed scenarios. Upon passing test, students receive NAEMT TECC-LE certification.

➤ **FEDMED**

5-day course designed specifically for federal law enforcement officers. Students learn how to diagnose and treat various illnesses and injuries utilizing role players and simulations. Upon successful completion, AHA BLS and NAEMT TECC certifications are achieved; for EMTs, this course also serves as a full EMT re-certification.

NORTH AMERICAN RESCUE®

Education and Training

➤ **Phone:** 888.689.6277 ➤ **Email:** NARTraining@NARescue.com

MILITARY

➤ TCCC-AC

This 40-hour course is designed for non-medical military personnel that provides a 4-year NAEMT TCCC certification upon completion. Students will learn emergency battlefield medicine focusing on preventable causes of death.

➤ TCCC-MP

This 16-hour course is designed for non-medical military personnel that provides a 4-year NAEMT TCCC certification upon completion. Includes standard training with addition of scenarios utilizing role players and moulage.

➤ EGT-AC

This 5-day course is designed for small military units that provides a 4-year NAEMT TCCC-AC certification. Provides students with TCCC medicine and drills, field maneuvers, and trauma lanes with role players and CASEVAC trainers.

➤ EGT-MP

This 5-day course is designed for military medical provider units that awards a 4-year NAEMT TCCC-AC certification upon completion. Provides students with TCCC medicine and drills, field maneuvers, and trauma lanes with role players and CASEVAC trainers.

➤ SOFMED

This 8-day course is specifically designed for Special Operations Medics that provides the following certifications: BLS, ACLS, PALS, TCCC-MP, and a full NCCP 60-hour CEU/NRP refresher. Students focus on medicine while enhancing tactics via use of simulations, role players, and trainers.

➤ SOTM

This 8-day course is specifically designed for Special Operations Medics that provides the following certifications: BLS, ACLS, PALS, TCCC-MP, and a full NCCP 60-hour CEU/NRP refresher. Students focus on medicine while enhancing tactics via use of perfused cadavers, simulations, role players, and trainers.

➤ Toxic MED 101

2-day course for anyone who may be involved in a CBRN incident. Students will receive critical knowledge and skills on how to respond to incidents involving chemical/biological/radiological/nuclear contaminants. NAEMT TECC certification awarded upon completion.

➤ Toxic MED 201

5-day course designed for medical providers/first responders. Provides background, knowledge and methodologies associated with responding to or supporting CBRN operations with casualties. Students will have the opportunity to receive the AHLS certification if desired. All students will earn NAEMT TECC certification upon successful completion.

ADVANCED

➤ Austere Rescue Course

5-day course aimed at military medical providers and paramedics. Students will receive periods of instruction covering austere medicine, remote rescue, and patient transport in rugged terrain with limited resources. Course will involve treatment and movement in remote environments coupled with challenging problems involving emergency medicine, transport, and elements of PCC.

➤ Austere Surgical Course

5-day course exclusively designed for military surgical teams. Students will utilize perfused cadavers to hone surgical skills in a variety of environments; battlefield conditions and equipment will be incorporated into training to increase proficiency and team skills. SOPs will be tested in preparation for full mission profile event.

➤ Prolonged Critical Care

5-day course that gives military medical providers the knowledge and skills necessary to treat patients in an austere environment for longer periods of time with limited resources when patient evacuation is not tenable. Students will be instructed on how to keep patients stable with whatever resources are available until transport arrives.

Tactical Operation
Medical Manikin SERIES

TOMManikin®

BASIC | BLAST | GSW | WATER | CONFINED SPACE | BURN | CBRNE | FEMALE

Rugged, state-of-the-art training simulators, NARS TOMManikin® Series provides the comprehensive solution for enhanced training in Tactical Combat Casualty Care (TCCC) from Point of Injury to transfer of higher care!

- **All-in-one, hyper-realistic trauma simulation solution** enabling instructors to build multiple realistic traumatic casualty scenarios with reactive patients
Ideal for use in classroom settings, trauma lanes and field training scenarios
- **Multiple, interchangeable extremities** present a variety of wounding patterns to provide full mission profiles in combat scenarios and disaster/mass casualty re-creations

- **Solid metal bones and joints** constructed of welded steel for unparalleled durability and quick exchange leg joints for flexibility in the most austere environments
- **Proprietary silicone skins** available in light, medium or dark skin tones that will not break down during prolonged UV exposure or extreme temperatures

- **180 lb manikin** provides extremities capable of withstanding up to 6,000 lb of pressure - Ideal for building collapse/entrapment training scenarios beyond conventional exercises
- **Ruggedized remote controls** provide simultaneous long-range communications with multiple NARS devices all from a single device!

SPECIAL FEATURES

Interactive Animatronics:

- Lifelike Breathing Mechanisms
- Functional Anatomical Airway
- Variable Radial Pulse Rates & Pressure
- High Fidelity Bleeding from Multiple Wounds
- Customizable, Multi-language Voice Tracks
- Rugged Softech® Skin in a variety of skin tones

Wireless Controls:

- MILSPEC Wireless Remote Instructor Tablet & Software
- Stand alone point-to-point communications with .5 mile line of site range

Flexible Wound Configurations:

Basic | Blast | GSW | Water | Confined Space | Burn | CBRNE
Custom configurations including Female Anatomy on request

Clinical Interventions available on ALL TOMManikins:

MASSIVE HEMORRHAGE:

- **Tourniquet Application** (proximal, junctional & abdominal)
- **Active Bleeding Control** by Direct Pressure on Pressure Points
- **Wound Packing**

ADVANCED AIRWAY:

- **Nasopharyngeal/Oral/Supraglottic Airway** Insertion
- **Endotracheal Intubation**
- **Surgical Airway** and **Tissue Dissection** with Realistic Bleeding

RESPIRATIONS:

- **Chest Seal Application**
- **Bilateral Needle Decompression**
- **Chest Tube Capable**

CIRCULATION:

- **CPR Chest Compressions**
- **Antecubital IV Access** on uninjured upper limbs
- **IO** (sternal & humeral)

NORTH AMERICAN RESCUE®

Simulation

Every TOMManikin® includes:

- **ACCESSORY KIT**
 - 2 x NiMH rechargeable batteries (5-amp & 10-amp) with independent chargers
 - 1 x T-handle wrench
 - Replacement connectors
 - 5-pack of surgical airway neck skins (35 op sites)
 - 8 oz concentrated sim blood
 - NARS mil spec-rated tablet
 - 2 x 3-wheeled transport and storage carriers designed for TOMM

- 1 x NAR IFAK
- Instructor-worn 2-way communications headset
- **VELCRO UNIFORM**
 - Digital pattern
 - Sand color scheme
 - Blouse features Velcro sleeves and lateral seams
 - Trousers feature Velcro inseam and lateral seams
 - Button fly

MILSPEC INSTRUCTOR TABLET with Scenario Preset Builder Software

Features:

- Features proprietary communication link that requires NO Wi-Fi, Bluetooth, or LAN connections
- Simultaneous long-range communications with numerous NARS devices
- NO interference risk with telemetry, avionics, or weapon systems

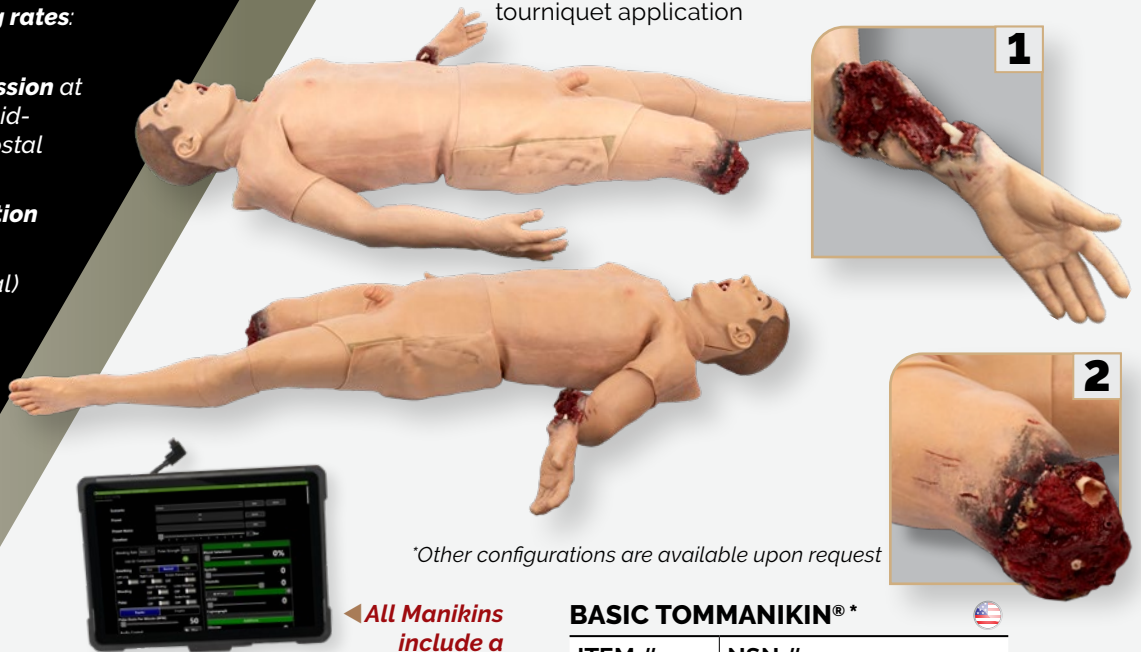

MILSPEC Rated:

- **Operating:** -20 to 60°C (-4 to 140°F)
MIL-STD-810G, Method 501.5 Procedure II
- **Storage:** -40 to 70°C (-40 to 158°F)
MIL-STD-810G, Method 501.5/502.5 Procedure I
- **Water:** IP65, IEC 60529
- **Drop/Shock:** 26 drops from 1.2 m (4 ft)
MIL-STD-810G, Method 516.6 Procedure IV
- **Vibration:** MIL-STD-810G, Method 514.6 Procedures I, II
- **Sand/Dust:** IP65, IEC 60529
- **Humidity:** 0 ~ 95% (non-condensing)
MIL-STD-810G, Method 507.5
- **Altitude:** 4572 m (15,000 ft)
MIL-STD-810G, Method 500.5 Procedure I

- **Tourniquet Application** (proximal, junctional, and abdominal tourniquets)
- **Active bleeding** controllable by **direct pressure** on pressure points
- **Wound packing** with realistic bleeding control
- **Nasopharyngeal and oral airways, supraglottic airway** insertion and **endotracheal intubation**
- **Surgical airway** with realistic bleeding and tissue dissection 35 operative sites included
- Remote controlled **breathing rates:** Slow, Normal, and Fast
- **Bilateral Needle Decompression** at either 2nd/3rd intercostal (mid-clavicular), or 5th/6th intercostal (mid-axillary) locations
- Realistic **chest seal application** & adhesion
- **Chest Tube** capable (bilateral)
- **Radial pulses** in uninjured upper extremities & bilateral carotid pulses
- **CPR Chest Compressions**
- **Variable pulse rate & pressure** (Normal, bounding, thready)
- **IO** (sternal & humeral) and **antecubital IV access** on uninjured upper limbs

BASIC Wounding Patterns:

- 1. Partial Arm Amputation below the elbow** with Massive bleeding and dramatic soft tissue damage, exposed hard bone and discernible tissue layers Responds to tourniquet application or brachial artery direct pressure application
- 2. Full Amputation Leg** with massive bleeding, extensive soft tissue damage, exposed hard bone, visible tissue layers. Responds to direct junctional pressure and tourniquet application

*Other configurations are available upon request

◀ **All Manikins include a MILSPEC-rated instructor tablet**

BASIC TOMMANIKIN®*

ITEM #	NSN #
93-0035	6910-01-705-3108

BLAST TOMManikin®

BLAST Wounding Patterns:

- 1. Open Jaw Fracture Head Skin** with massive maxillofacial bone and soft tissue injuries, actively bleeds. Supports OP/NP/ET/ Surgical airways
- 2. Packable Abdominal Evisceration** with intricate handcrafted attention to anatomical detail with visible tissue layers, and 10 in. of eviscerated bowel with peripheral ecchymosis surrounding large open wound. Massive bleeding with "clampable" vessel
- 3. Shrapnel Wound Arm** with active bleeding, multiple soft tissue wounds, responds to tourniquet application
- 4. Full Amputation Leg** with massive bleeding, extensive soft tissue damage, exposed hard bone, visible tissue layers. Responds to direct junctional pressure and tourniquet application

*Other configurations are available upon request

BLAST TOMMANIKIN®*

ITEM #	NSN #
93-0036	6910-01-705-3094

TRAINING

INDEX

GSW (Gun Shot Wound) TOMManikin®

GSW Wounding Patterns:

1. Sucking Chest Wound with anterior GSW entry & posterior exit. Actively bleeds from both locations. Anterior wound mixes with air from onboard compressor to create bubbling bleeding effect. Supports chest seal application and pleural needle decompression

2. GSW to Groin with GSW anterior entry/posterior exit with soft tissue trauma to penis and avulsed scrotum with prolapsed testicle. Wounds present with peripheral wound site ecchymosis, exposed sub-q fat layer and muscle striation. Entry wound is packable and responds to both peripheral and junctional tourniquet application and femoral pressure point application

3. GSW Leg with through & through GSW to leg above the knee. Entry wound presents with small entrance hole with circular powder burn. Exit wound has exposed fat and wound site ecchymosis. Variable bleeding rate. Responds to both peripheral and junctional tourniquet application and femoral pressure point application. Can be used as an impaled object using steel rebar, or wooden stake

4. Full Amputation Leg (Option)** with massive bleeding, extensive soft tissue damage, exposed hard bone, visible tissue layers. Responds to direct junctional pressure and tourniquet application

**Other configurations are available upon request*

Addressing injury locations based on US Army study suggesting females who suffer penetrating injuries to chest, abdomen, pelvis have a higher mortality rates than male colleagues

TAMikin™ GSW

Female version of TOMManikin® GSW, with anatomically correct female features and voice

- Injuries located in sensitive areas such as under breast & pubic area as well as the leg
- Parallels GSW TOMManikin's capabilities & wounding patterns

****Leg Amputation Option**
93-0369/93-0947

GSW TOMMANIKIN® *

OPTION	ITEM #	NSN #
GSW TOMM	93-0040	6910-01-705-2593
GSW TOMM (w/Leg Amputation)	93-0369	6910-01-705-3130
GSW TAMikin™ ***	93-0039	
GSW TAMikin™ *** (w/Leg Amputation)	93-0381	

***Female version

**Other configurations are available upon request*

TCCC MAN® Simulator

Specifically designed for the application of skills and education utilizing protocols from Tactical Combat Casualty Care (TCCC)

TCCC Interventions Supported:

- Massive hemorrhage control (tourniquet application and wound packing)
- Chest seal application
- Pleural needle decompression (multiple sites)
- Airway management (NP/OP airways, supraglottic devices, endotracheal intubation)
- Tibial intraosseous site

Wounding Patterns:

- **GSW Chest Wound** with anterior entry and mid-axillary exit wound
- **Deep Packable** pelvic wound
- **Full Amputation Leg** below the knee. Tourniquet responsive
- **Unstable Pelvis** with palpable crepitus

TCCC MAN® Simulator

ITEM #

93-0958

At 150 lbs. with a welded steel frame, TCCC Man® withstands drops, falls, and drags.

WATER TOMManikin®

Wounding Patterns:

Partial Leg Amputation below the knee with exposed hard bone, muscle and tissue layers.

Options:

GSW to Chest with anterior GSW entry & posterior exit and active, bubbling bleeding. Supports chest seal application and pleural needle decompression.

-or-

Packable Abdominal Evisceration with handcrafted, visible tissue layers, and 10 in. of eviscerated bowel with peripheral ecchymosis surrounding large open wound. Massive bleeding with "clampable" vessel

Closed Fracture Arm with ecchymosis and palpable crepitus.

*Other configurations are available upon request

WATER TOMMANIKIN®*

OPTION	ITEM #
Basic (GSW to Chest)	93-0041
ABD Evisceration Closed Arm Fracture	93-0108

Designed to be submerged up to 33 feet in either fresh or salt water

CONFINED SPACE TOMManikin®

Wounding Patterns:

GSW to Chest with anterior GSW entry & posterior exit and active, bubbling bleeding. Supports chest seal application and pleural needle decompression.

Partial Leg Amputation below the knee with exposed hard bone, muscle and tissue layers.

Shrapnel Wound Arm with multiple soft tissue wounds and tourniquet responsive bleeding.

CONFINED SPACE TOMMANIKIN®*

ITEM #

93-0110

*Other configurations are available upon request

BURN TOMManikin®

Wounding Patterns:

Burn Face* with 1st, 2nd, 3rd-degree burns to face that supports all airway adjuncts. *Head skin is interchangeable with other TOMManikins*

Burn Arms with 1st, 2nd, 3rd-degree circumferential burns to both arms

BURN TOMMANIKIN®*

ITEM #

93-0037

****Head skin is interchangeable with other TOMManikins**

**Other configurations are available upon request*

CBRNE TOMManikin®

Wounding Patterns:

Burn Face* with 1st, 2nd, 3rd-degree burns to face that supports all airway adjuncts. *Head skin is interchangeable with other TOMManikins*

GSW to Chest with anterior GSW entry & posterior exit. Actively bleeds from both locations. Anterior wound mixes with air from onboard compressor to create bubbling bleeding effect. Supports chest seal application and pleural needle decompression

Abdominal Evisceration (Wearable Moulage) with intricate handcrafted attention to anatomical detail with visible tissue layers, and 10 in. of eviscerated bowel with peripheral ecchymosis surrounding large open wound. Massive bleeding with 'clampable' vessel.

GSW to Groin with GSW anterior entry/posterior exit with soft tissue trauma to penis and avulsed scrotum with prolapsed testicle. Wounds present with peripheral wound site ecchymosis, exposed sub-q fat layer and muscle striation. Entry wound is packable and responds to both peripheral and junctional tourniquet application and femoral pressure point application

CBRNE TOMMANIKIN®*

ITEM #

93-0038

**Other configurations are available upon request*

K9 Medical Simulator

K9 Features:

- Welded steel frame, solid metal joints
- Expanded joint range of motion
- CPR chest
- 5 interchangeable limbs with various injuries: Complete Amputation, Open Fracture, Soft Tissue Injuries, Road Rash/Burns, & Penetrating Injury
- Life-like airway
- Barks, Bleeds & Breathes
- 1L onboard blood capacity
- Wireless operation via NARS tablet
- Includes K9 wearable wound vest with interchangeable injuries

See full set of included injuries at NARescue.com

K9 SIMULATOR

ITEM #

NSN#

93-0027

6910-01-706-0307

Deluxe ALS KIT

Designed to simulate various vital signs for advanced life support monitoring and simulation

Features:

- Simulated NIBP cuff, SpO₂ finger probe, and ETCO₂ inline detector with waveform and digital value
- Simulated cardiac monitor screen with Lead II tracing rhythm
- ETCO₂ & SpO₂ waveforms, NIBP. Fully functional monitor screen for defibrillation/AED mode, alarms, and rhythm synchronization
- All student-visible values controlled via NARS Instructor tablet (included)
- NARS software includes exportable student evaluation performance documentation

Disconnect your student's dependency on instructor "over-the-shoulder" input

PATIENT MONITORING SUITE with NARS Instructor Tablet

NARS Patient Monitoring Suite of simulators can be used in all phases of patient care for any human (role-player), or ANY patient simulator

Features include:

- **NARS Capnograph Simulator**
Designed to be used as a mainstream carbon dioxide monitor that can be connected in-line with a mask or tube. Simulator displays include carbon dioxide partial pressure, respiratory rate and CO₂ waveform.
- **NARS Pulse Oximeter Simulator**
Utilizes the widely used finger-style probe for monitoring blood oxygen saturation. Simulator display includes Heart Rate, SpO₂ and SpO₂ waveforms.
- **NARS NIBP Monitor Simulator**
Designed to replicate a portable NIBP monitor. This simulator allows medical responders to gather vital signs without instructor intervention. Onboard controls allow various modes of operation. Display includes systolic & diastolic pressures (mmHg) and heart rate.

DELUXE ALS KIT

ITEM #

93-0351

PATIENT MONITORING SUITE

ITEM #

93-0071

Includes NARS Instructor Tablet

MOBILE FEEDBACK SYSTEM *requires AC power

Standalone mobile platform to capture simulation events*

Features include:

- Pelican 1650 case with custom-cut foam to protect all system components
- 2 x Cameras
- 2 x 72 in. Telescopic Tripods with camera mounts
- 3 x Terabyte stand-alone recorder
- 1 x NARS mil-spec rated Instructor Tablet for wireless communications
- Proprietary software with instructor bookmark/replay feature, simulator status capture, trainee biometric capture, trainee evaluation software (exportable reports)
- 2 x 25 ft. CAT-6 retractable cord reels
- Trainee-worn stress monitor
- Features streaming participant heart and respiratory rate

Features:

- Student wearable system that allows instructors to “live monitor” up to 4 students’ heart and respiratory rates
- 4 student kit w/puck, harness & software
- Includes monitor ‘pucks’, charging cradles, harness, and USB cables
- Requires NAR Tablet and software (not included)

MOBILE FEEDBACK SYSTEM

93-0945

WEARABLE TRAINEE STRESS MONITOR

ITEM #
93-0273

WEARABLE TRAINEE STRESS MONITOR

MASTER TCCC SKILLS

V-PIT™ Virtual Patient Immersive Trainer

FOR MEDICAL SIMULATION TRAINING ENVIRONMENTS

Specs

- Virtual patient designed to match a partial set or full range of physical TOMManikin® configurations
- Student gaze tracking with instructor verification
- Virtual interventions
- Multi-stage conditions with physiological progression
- Integration between virtual patient physical TOMManikin®
- Remote control NAR Simulation tablet and hub
- Simultaneously supports up to 4 Hololens headsets (requires separate purchase of individual Hololens)

Dimensions

- Packaged - W 27.5 in. x L 16.25 in. x D 8.75 in.
- Weight 12 lbs

A TCCC Training Regimen to Match the Modern Battlefield

Working in partnership with North American Rescue, Unveil has developed the Virtual Patient Interactive Trainer (V-PIT)™. The V-PIT is an augmented reality training system that enhances the visual presentation of patient conditions. The V-PIT highlights patient visual cues that are hard to replicate in traditional training, such as altered mental status, respiratory distress, progression of shock and tissue swelling. In addition, V-PIT's rapid delivery of scenarios and real-time data capture of training sessions makes TCCC training more efficient.

Debrief with Confidence

The V-PIT supports gaze tracking and scenario reporting data. As the student progresses through the scenario, data is continuously captured to reflect where on the virtual patient the student was looking. Data is automatically stored in each student's record to easily review where improvements can be made. Implementation of physical interventions is also automatically stored for quick review of each student's skill set. This time-stamped record allows for more effective after action reviews to reinforce positive decisions and actions taken by the student, as well as to identify opportunity areas.

Ideal for the Crawl and Walk phases of TCCC Training

V-PIT helps instructors move trainees through the "crawl" phase of training by facilitating the rapid delivery of multiple augmented reality scenarios. More than 70 injury combinations are available, with emphasis placed on the three most prevalent battlefield killers: exsanguination, airway obstruction, and tension pneumothorax.

This rapid immersion helps students develop fast recognition skills and mentally rehearse the activities and interventions that will be needed in the real world environment. Instructors can then move students to the "walk" phase by connecting the V-PIT to the TOMManikin®. Developed to work together, trainees can now leverage the V-PIT to connect doctrine and diagnostic skills with physical interventions via the TOMManikin®. As the virtual patient changes, the TOMManikin® automatically updates to reflect changes in breathing, pulse, bleeding and oxygenation levels. The combined system provides virtual and hands-on training to best prepare your emergency medical trainees.

* Clients can create custom packages of software scenarios that add the greatest value to their current simulation training. Initial purchase provides access to base content, subscription renewal required for updates and support.

REAL-TIME REPORTS

Patented Tracking Technology

BASE TCCC PACKAGE COVERS 65 SCENARIOS INCLUDING

- Tension Pneumothorax
- Exsanguination
- Airway obstruction
- Penetrating GSW
- Non-Penetrating GSW
- Blunt force trauma
- Extremity amputation
- Severe Burns
- Blast trauma

V-PIT PACKAGE INCLUDES

- Microsoft Hololens 2 (Enterprise Edition)
- Virtual Patient Immersive Trainer (V-PIT software suite 1-1.1) with single user license
- V-PIT charger
- NAR Simulation Tablet with charger
- Quick start guide
- Pelican 1605 case for storage and transport. Includes custom cut foam.
- Includes long-life external battery

TOMManikin COMPATIBLE

can be used as a **STANDALONE SYSTEM**

Our pre-packaged simulation content is focused on some of the most critical training challenges

AIR BLAST Simulator

Features:

- Portable system utilizes compressed air to create a simulated blast effect.
- All components housed in a waterproof hard shell case
- Safe for indoor use
- Eco-friendly
- Built-in compressor
- Onboard rechargeable battery and charging system included.

AIR BLAST SIMULATOR

ITEM

93-0291

SENSORY CONTROL UNIT *without camera*

Built as a rack system, the SCU is self-contained, easily transportable, and will configure to most training environments, especially stationary units (e.g. cargo container and kill houses). The system is completely reusable and easily reset so that training iterations can be run with minimal interruption.

The SCU contains the hardware, software and electrical components required to equip multi-sized simulation environments for a training procedure. To recreate the realism of extrication under fire, the training operator can introduce into the training structure (laptop Master Controller or NARS Tablet) varying intensity of light, smoke (foggers), wind, and sound.

This platform supports the addition of cameras.

Features::

- 2 hard cases for cables and wireless control devices.
- Upgrade capability for NARS Video Management System.

Contents:

- **LED light set (x2)**
 - Wireless control
 - Six brilliant amber, blue, red, and white LEDs
 - Clear optic hard-coated polycarbonate lens
 - Stand included
- **Fogger (x1)**
 - Wireless Control
 - Water-based fog/smoke
 - .9-gallon capacity
 - Low fluid indicator
 - Output 20,000 CFM
 - Features low fluid light indicator
 - LED-illuminated tank
 - Automatic shutdown
- **Blower (x1)**
 - Wireless control
 - 3-speed output (2600-4000 CFM)
 - 1HP
- **Loudspeakers (2x)**
 - Wireless control of volume and soundtracks
 - Built-in 1000W amplifier (2000W peak – 1000 continuous)
 - Output: 127dB
- **Air blast simulator (x1)**
- **NARS Tablet (x1)**

The NARS tablet is a ruggedized tablet that communicates with multiple NARS devices via Bluetooth to ZigBee relay.

SENSORY CONTROL UNIT

ITEM

93-0279

MOBILE ENVIRONMENT CONTROL UNIT

with NARS
Instructor Tablet

MECU is designed for mobility, and can be set up in a variety of training areas. This is a great option for smaller scale simulation events where dedicated training facilities are not available.

Features: & Contents:

- 2 hard cases for cables and wireless control devices.
- LED light set (x1)
- Fogger (x1)
- Blower (x1)
- Loudspeakers (x2)
- NARS remote control tablet with proprietary NARS Advanced Remote software

MOBILE ENVIRONMENT CONTROL UNIT

CASEVAC SIMULATOR H-60

The North American Rescue Simulation (NARS) H-60 is a portable, and reusable helicopter cabin structure built for providing realism to combat medical training without heavy demand on personnel.

NARS H-60 provides the capability to train appropriate personnel on the proper methods of administering medical aid to occupants from the interior of a structure within the parameters of a training exercise.

Features:

- Equipped with Sensory Control Unit and NARS Tablet
- Allows for combat configuration of equipment
- Train combat loading multiple patients
- Allows for loading patients from Point of Injury
- Simulate treatment during transportation
- Compatible with Fries Bar attachment*

Add'l Options Available:

- Fries Bar
- ICS Box (Includes 2 headsets and 15 ft. cords)
- Blackout Window Kit

Dimensions:

L 25 ft. x H 8.5 ft. x W 6.75 ft.
Weight: 2200 LBS

*Fries Bar attachment available for H-60. Visit NARescue.com for more info. ▲

NEW H-60 Cockpit with Realistic Pilot/Co-Pilot Seats and Graphics Panel

CASEVAC SIMULATOR CV-22

The CV-22T simulator is used to increase efficiencies during the initial point of injury and tactical evacuations phase of care. This advanced simulator provides a variety of options that enhance the simulated battlefield at any location.

Features:

- Equipped with removeable, Sensory Control Unit and NARS Tablet
- Allows each unit to configure to Standard Operating Procedures
- Cabin height, width, and length to realistic sizes
- Day or night operations
- Treatment platform for CASEVAC training
- Used as a CV-22 crash site
- Black out during daytime operations
- Realistic crew securing landmarks
- Patients can be properly secured on floor
- Reinforced floor rings

Add'l Options Available:

- ICS Box (Includes 2 headsets and 15 ft. cords)
- Litter Stanchions (set of 2)
- Crew Seats

Specs & Dimensions:

- A mobile (DOT licensed) trailer that replicates characteristics of CV-22 aircraft
- Tandem Axle design
- Maximum Weight is 14,000 lbs
- Trailer length 35' 7"
- Trailer width 8' 9"
- Trailer height 9' 3"
- Ramp opening trailer for on and off load of patients
- Ramp length will not exceed 7 feet
- Ramp width will not exceed 70 inches
- Interior: L 21 ft. x W 62 in. x H 72 in

LITTLE BIRD MH-6

The Little Bird is a portable (reusable), MH-6 size helicopter cabin simulator. It provides a realistic, multi-purpose, platform that accurately depicts real-life extrication situations and enhances medical training in crash scenarios.

The Little Bird, used in conjunction with the TOMManikin and Sensory Control Unit (SCU), provides total integration between the simulated cabin and the environmental factors that can be applied to enhance any training scenario.

Features:

- Realistic crew securing landmarks, allowing securing of patients
- Reinforced Rings
- Internal fuel tank
- Day or night operations
- High-powered amplifier and speakers to simulate aircraft noise
- High-powered fans simulate rotor wash
- Aircraft lighting (white, green/ blue)
- Sensory Control Unit included
- All functions are controlled via a NARS Tablet (included)
- Submersible version available for aquatic environments

Dimensions:

L 12 ft. x H 7 ft. x W 6 ft.

Weight: 700 LBS

MH-6 LITTLE BIRD TRAINING SIMULATOR

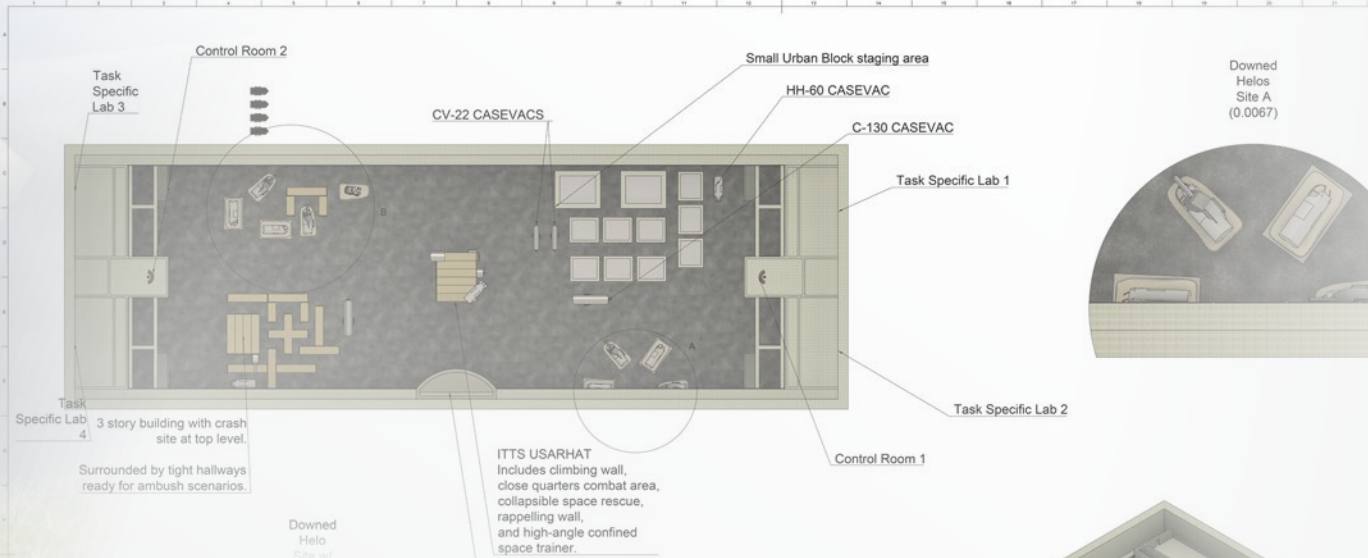

OPTION	ITEM #	NSN#
MH-6	93-0925	---
WATER MH-6	93-0923	---

The front compartment features an entanglement trap for the TOMManikin (both pilot and co-pilot). Little Bird has "extractable" doors, providing a realistic obstacle to emergency extractions. To add a sense of stress and the element of surprise to the care-under-fire and extraction experience, the portable NARS Sensory Control Unit (SCU) applies environmental distractions to a training scenario. Remotely controlled via an included NAR Sim tablet, training cadre can introduce, and vary the intensity of, noise and smoke (fogger).

SIMULATION CENTER

North American Rescue Simulation specializes in working closely with customers who have unique training and simulation training center requirements. We engineer custom, scalable, experiential learning environments from concept design through installation and on-site training.

Simultaneous integration of multiple NARS products and devices create environmentally realistic scenario settings. From care in the streets/POI care, mass-casualty triage, prolonged field care and complex medical/surgical case management, our solutions provide the capability to train personnel in a safe, reproducible environment.

Simulation Center Features:*

- Portable, reusable training systems that enhance the realism of combat medical training without heavy demand on personnel.
- Enhances stress inoculation capabilities while training personnel proper methods of administering medical aid to casualties from the interior of any structure, or within the parameters of a training exercise.
- Simultaneous control of all NARS devices from a single control point.
- Welded Steel Frames
- Numerous options available for faux wall styles (Wood, Brick, Stone, etc.)
- Multiple cameras to capture student performance
- Video playback software with bookmarking and annotation features

*Simulation centers are custom built. Options vary depending on customer's unique needs and budget. Contact NAR Simulation for more information.
