

NAR IPRO

Tactical Goggle System

Fully Enclosed Eye Protection...

For situations that require fully enclosed eye protection, the NAR IPRO Tactical Goggle System provides high-impact protection, optimal fit, a wide field of view, plus helmet and night-vision equipment compatibility.

Designed to be worn either over or under a helmet, the unique hexo-vents surrounding the goggle permit maximum ventilation for fog-free performance as well as fine particle filtration for dirt and dust.

Interchangeable clear and tinted lenses provide high impact-resistance, non-distorted visual clarity in various light conditions, and 100% UV protection.

Features:

- Fully enclosed, high-impact eye protection
- Compatible with helmet and night-vision goggles
- 2 clear and 2 tinted lenses (neutral gray) with 100% UV shield
- Hexo-vents for fog-free viewing
- Certified to ANSI Z87.1-2003 & EN 166:2001 standard
- Meets U.S. Military Eyewear Ballistic Impact Requirements (MIL-PRF-31013 CLAUSE 3.5.1.1)
- Cleaning kit & padded zipper carrying case included

Dimensions:

- Packaged:
 - L 2.6 in.
