

# CELOX™ Z-FOLD HEMOSTATIC BANDAGE - TRAINER

REV022422

## *Ideal for treatment simulations and wound packing exercises*

The Celox™ Z-Fold Trainer is designed to provide a hemostatic bandage training aid intended to teach and improve muscle memory for treatment of severe high pressure bleeding, arterial and venous bleeding, wound packing, topical bleeding wounds, and wounds from bullets, blasts, knives, or shrapnel. Ideal for treatment simulations and wound packing exercises utilizing artificial blood or other training aids, it is a completely inert training gauze (no hemostatic properties) that allows for proper instruction of the application of Celox™ Z-Fold Hemostatic Bandages.

### **Features:**

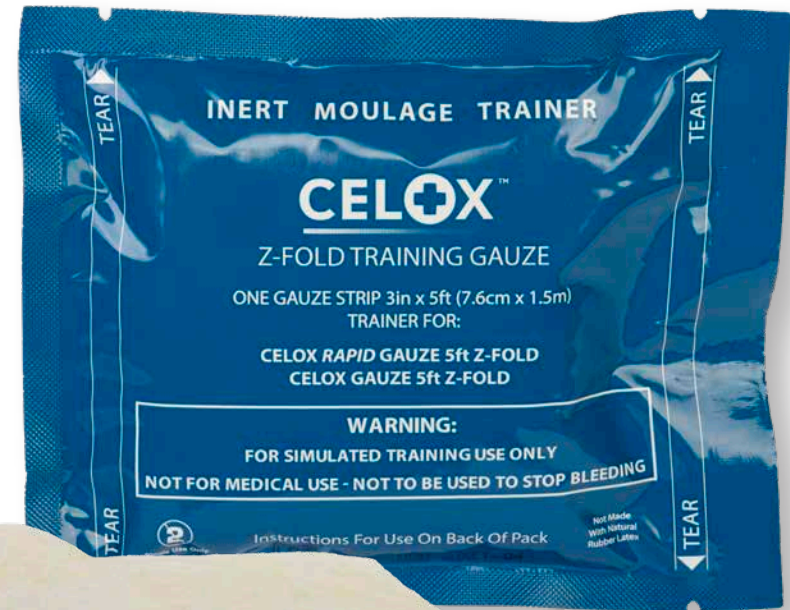

- Completely Inert
- Compact Z-folded format making it easy to use & carry
- Allows for medical trainers to thoroughly instruct personnel on the proper application of Celox™ Z-Fold Hemostatic Bandage

### **Dimensions:**

- Packaged: H 5.25 in. x W 4.25 in. x D 0.5 in.
- Gauze: W 3 in. x 5 ft
- Weight: 1.1 oz
