

NAVY SAR SOML 112 H2O DIVE KNIFE WITH SHEATH

REV051823

by **Benchmade®**

Provided by **BENCHMADE® and now available from **North American Rescue!****

When time underwater is limited, having the right tool can make the difference in a Dive mission being a success or failure including life or death situations. Navy Divers are exceptionally adept utilizing the tools for their job. These brave men and women embody the courage of America's Navy - readily going into harm's way to complete their Dive missions in some of the most extreme environments imaginable. The Benchmade 112SBK-BLK H2O knife - designed with the world's foremost Diving experts... Weather cutting line to clear a prop, cutting out a Diver from being entangled or prying different areas on a hull, this Dive knife is the tool of choice for all potential situations that Divers encounter.

Approved for all Navy Diving, this innovative knife features an opposing bevel blunt-tip blade suitable for cutting and prying, safety hook and carbide glass breaker. Its locking sheath is designed to help prevent losing the knife when not in use whether attached to your leg, arm or other location on your gear. The N680 ultra stainless steel with black Cerakote™ blade provides exceptional corrosion resistance.

Features:

- Fixed blade mechanism
- Opposing bevel blade style with blunt tip and integrated rescue hook
- N680 ultra stainless steel blade (57-59HRC)
- Black Rubberized Overmold handle with carbide glass breaker
- Injection molded plastic sheath with thumb release lock

Specifications:

- Blade Length: 3.5 in.
- Blade Thickness: 0.124 in.
- Handle Thickness: 0.59 in.
- Knife Weight: 3.20 oz.
- Sheath Weight: 1.40 oz.
