

# K-9 HANDLER IFAK

Combat Casualty Response Kits® **CCRK®**

## Designed for Immediate Lifesaving Treatment to a Wounded Handler, Operator or K-9 at Point of Injury...

The NAR K-9 Handler Kit is designed to enable canine handlers to provide lifesaving treatment to injured canines at the point of injury or when veterinary care is not immediately available. This kit and its contents are compact, durable and allow the handler to carry an individual first aid kit that can be utilized for rendering care to the handler, their canine or other injured persons.

The NAR K-9 Handler Kit provides the necessary tools to address the major traumatic injuries seen in working dogs (including the option of choosing the hemostatic dressing Combat Gauze®). It also includes treatment for other canine emergencies such as bloat or heat injury. Small size allows for easy attachment using MOLLE/PALS style connectors to the assault vest/body armor or can attach to a Quick Detach Panel for fast, easy removal of entire kit (available for separate purchase).

Color	Hemostatic	Item#	NSN#
BLK	---	80-0439	
COY	---	80-0440	
MTC	---	80-0441	
ODG	---	80-0442
