

IV POLE

ADJUSTABLE

Learn more about this and other **Products with a Mission®** at www.NARescue.com

Efficient and Reliable Solution...

North American Rescue's Adjustable IV Pole is exclusively designed to expand the treatment capabilities of our family of evacuation platforms by fitting the pre-molded holes of all NAR framed litter platforms including the Talon®, Raven®, T3, Medevac & OSL litters.

This essential, lightweight accessory is easy to transport and fully adjustable, from a minimum clearance of 18.5 in. expanding to a height of 32 in. when deployed.

Exclusively designed to fit the pre-molded holes of our framed litters and weighs less than 5 ounces.

NOTE: All accessories are sold separately. Litters are not included.

FEATURES/SPECIFICATIONS

- Allows patients to be placed at 90° or 45° angles
- Made of Nomex/Kevlar-blend fabric
- Compatible for use with the Talon®, Raven® and Medevac litters
- Firm, comfortable, and secure
