

BENCHMADE SOCP RESCUE TOOL

The Benchmade SOCP Rescue Tool designed by the creator of the Special Operations Combatives Program (SOCP) is a variation of the original Greg Thompson SOCP Dagger and is intended for rescue performance and less-than-lethal self-defense. This efficient rescue hook design features a fixed 440C blade hook of high-chromium stainless steel with balanced hardness and corrosion resistance which accommodates a fine edge that is fairly easy to re-sharpen. Additional features include a carbide glass breaker, oxygen wrench, grey coated single-piece handle with finger loop, and black Injection molded plastic sheath with lanyard hole and dip-coated clip.

FEATURES/SPECIFICATIONS
