ASSAULT LITTER CARRIER

Moving Emergency Stretchers to TACEVAC Locations Now Takes Less Effort than Ever Before...

Because the battlefield is challenging enough without the challenge of battling equipment, North American Rescue designed the Talon® Assault Litter Carrier to ease the task of litter transport.

Warfighters and Tactical Healthcare Professionals can comfortably carry the Talon® or any other NAR quad-fold litter into battle by itself or as part of a load carriage system.

Designed for maximum balance and weight-distribution, the carrier has thin back plates to aid rescuer movement; non-slip, adjustable shoulder straps to keep the load in place; a drain hole to prevent water from increasing the weight of the load; and a top-carrying handle for transport flexibility. Equipment attachment points (MOLLE-style) are on the exterior to maximize the ability to carry additional kits if needed.

Specifications:
- Collapsed: H 20 in. x W 9 in. x D 2 in.
- Expanded: H 20 in. x W 9 in. x D 10 in.
- Weight: 1 lb 7.3 oz
- SEL#: 09ME-01-COTS

Features:
- For use by itself or as part of a load carriage system
- Equipment attachment points (MOLLE-style) sewn on exterior to maximize ability to carry additional kit
- Thin back plates & drain hole
- Non-slip, adjustable shoulder straps and top-carrying handle
- 500D CORDURA® Solution-Dyed Nylon with built-in Near Infrared Signature Reduction; Ghillie-Tex IR signature reduction hardware
- Accommodates all NAR quad-fold litter platforms

Transport any of NAR’s quad-fold litters (Talon, MedEvac & T3) into battle with maximum comfort for the rescuer.
