FLAT EMERGENCY TRAUMA DRESSINGS - ETD®

FLAT FOLDED - 4 & 6 IN.

Flat folded rapid, controlled bandaging

The Flat Emergency Trauma Dressing (ETD®) series of bandages provide an effective, constant pressure bandage used for the treatment of wounds to control bleeding. The Flat ETD® is packaged in a low cube space, flat folded configuration to reduce its diameter and footprint in kits. It consists of a resilient elastic wrap equipped with a sterile non-adherent pad, durable securing device and innovative Quick-Grip Roll Control configuration. This combination facilitates a rapid, controlled, and extremely effective application process in the most demanding conditions.

The ETD® can also be used to sling and swath an arm, to secure splints to an extremity or to perform in any other function requiring an elastic wrap.

6 IN. FLAT ETD® DIMENSIONS

- Flat Pkg: L 6 in. x W 3.5 in x D 0.875 in.
- Bandage: L 56 in. x W 6 in.
