

AERO SCREWGATE CARABINER

RESCUE

Lightweight and Compact Design...

The Aero Screwgate Carabiner is a hot forged, fully-anodised, full strength locking carabiner with a large internal capacity.

It's lightweight, compact design and ergonomic spine make it easy to manipulate the gate with a single hand. The wide 17 millimeter gate clearance makes it easier to clip in while the hooded gate offers a smooth rope-bearing surface.

Features:

- Offset locking D carabiner with keylock nose that is the new standard for entry level lockers
- Incredibly strong yet extremely lightweight aluminum construction
- Compact ergonomic design for easy single-handed manipulation of the gate
- Easy-to-clip hooded gate with a 17mm clearance

Strength:

- Major Axis Loading Strength: 5620 lb (25 kN)
- Minor Axis Loading Strength: 2023 lb (9 kN)
- Open Gate Loading Strength: 2023 lb (9 kN)

Dimensions:

- L 4 in. x W 2.46 in.
- Gate Opening Clearance: 17mm
- Weight: 2.1 oz
