

CLEARDECON™ KIT

2.5 GALLON

The most advanced and effective immediate decontamination system available for first responders and military use.

ClearDecon™ is a sprayable waterless chemical and biological decontamination system that adheres to vertical surfaces and sprays on like paint. The system was designed to solve the unmet need of providing an immediate (15 minutes or less post exposure) decontamination solution as far forward as possible on the battlefield or point of need in our chaotic world.

ClearDecon™ is a two-part system with a shelf life of 5 years and pot-life of 7 days once mixed, and unlike other decontamination systems, it requires no water to prepare. ClearDecon uses a unique and proprietary chemistry to achieve the following performance characteristics:

- 1 Log reduction (90%) of vapor and contact residual in 30 minutes for nerve agents
- 4 Log reduction (99.99%) of vapor and contact residual in 4 hours for nerve agents

ClearDecon™ has a high level of efficacy against Chemical warfare agents (CWA), Biological warfare agents (BWA) and Pharmaceutical warfare agents (PWA) such as Blister, Nerve, Emerging Threats, Pharmaceuticals, Biological Spores, and more. Please note that ClearDecon™ can remain on contaminated surfaces for up to 14 days.

Destination Control Statement:

These items are controlled by the U.S. Government and authorized for export only to the country of ultimate destination for use by the ultimate consignee or end-user(s) herein identified. They may not be resold, transferred, or otherwise disposed of, to any other country or to any person other than the authorized ultimate consignee or end-user(s), either in their original form or after being incorporated into other items, without first obtaining approval from the U.S. government or as otherwise authorized by U.S. law and regulations.

FEATURES/SPECIFICATIONS

- No water required for preparation
- Stored as two components with a shelf-life of 5 years
- Pot life of 7 days once mixed
- Sprays like paint
- Adheres to vertical surfaces
- Stays on surface for up to 14 days
- Sprayable in temperatures as low as -20°C
- Easy removal with water
- High level of efficacy against both CWA, BWA and PWA (Blister, Nerve, Emerging Threats, Pharmaceuticals, Biological Spores)
- Codeveloped with the U.S. DoD
- Independently tested by the DoD and other agencies

DIMENSIONS

- Box 1 (Part A): L 13 in. x W 13 in. x D 15 in. | 31 lbs.
- Box 2 (Part B): L 10 in. x W 10 in. x D 10 in. | 3.1 lbs.
- Box 3 (Accessories): L 20 IN. x W 12 in. x D 10 in. | 24 lbs.
- Operational Weight: 25 lbs.

KIT CONTENTS

- 1x Part A (contained in gallon container)
- 1x Part B canister (contained in bag)
- 1x Funnel
- 1x Mixing Wand
