

BEAR CLAW® GLOVES

High performance textured gloves for improved grip in wet and dry situations

Bear Claw® Ultimate Nitrile gloves are made of 100% nitrile material which is free of the allergens found in standard latex gloves. They are engineered to give our users high performance by offering both maximum protection and unsurpassed tactile sensitivity.

This careful attention to detail includes textured fingertips to help with fine motor skills, beaded cuffs for quick and easy donning and a thickened palm for durability and reliability. These ambidextrous gloves are packaged 50 pairs per box (Extra large, 45 pairs per box); 25 pairs per bag. Designed for single-use only.

BEAR CLAW GLOVES
