## Your Solution To Compliance In The Mining Industry

This kit exceeds all the requirements of MSHA's (Mine Safety & Health Administration) § 75.1713-7 requirement for first aid equipment in mining environments. This kit is packed with bleeding control, splinting and evacuation equipment. Packaged in a rigid carrying case that is easily transported to the patient's side, this kit offers the ability to treat the most common workplace injuries with the added benefit of being able to control major bleeding with the C-A-T® Tourniquet, the fastest, safest, most effective prehospital field tourniquet in the world.

## FEATURES/SPECIFICATIONS
