

**Hydrogen Peroxide (1%)** rapidly kills bacteria, viruses & fungi on contact, effectively cleaning wounds with less irritation.

**Silver Hydrosol** picks up where peroxide leaves off, providing extended antimicrobial protection. Silver ions stay active to fight microbes, reducing the risk of reinfection and supporting natural healing.

**~150 APPLICATIONS PER 1oz BOTTLE**

# PREVENT INFECTIONS BEFORE THEY START

From training injuries to combat wounds, **KeriCleanz** helps your unit maintain readiness and avoid training washout.

This wound cleanser provides full-spectrum support—preventing infections from the outset and treating those that develop. It effectively reduces fungal and bacteria load and helps stop the progression to cellulitis.

## FIELD APPLICATIONS

### FRONTLINE PREVENTION

For initial prevention and protection against:

- Fungal infections (Athlete's foot, ringworm, yeast, etc.)
- Bacterial infections (Cellulitis, MRSA, biofilm, etc.)
- Contact Dermatitis
- Helmet/Gear Acne

### RAPID RESPONSE

For initial or ongoing treatment of:

**ALL FRONTLINE PREVENTION USES AND...**

- Contact Dermatitis
- Rashes
- Abrasions, cuts + blisters
- Pre- and post-tape cleaning
- Hand Sanitization

\*Compared to SOC disinfectant products.

\*\*Testing completed by certified national labs.

**10X MORE EFFECTIVE  
THAN STANDARD  
PEROXIDE OR SALINE-  
BASED CLEANSERS\***

## Wound Application Guide

- 1** Gently invert bottle to evenly mix.

- 2** Spray wound to fully cover area.

**NOTE:** Bubbling may occur as the wound is cleansed. Do not wipe or rinse. Kills germs within 10 seconds.

- 3** Apply Field Shield Dressing directly over treated area.

# YOUR FIRST LINE OF DEFENSE

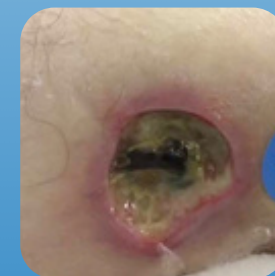

## KeriCleanz® Antiseptic Spray

is a potent skin and wound cleanser formulated with a unique combination of hydrogen peroxide (1% v/v) and antimicrobial silver hydrosol. The spray works to reduce infection-causing bacteria by disrupting biofilms and eliminating germs within 10 seconds of application.

This spray-on, no-rinse formula with bubbling action lets you know it's working and simplifies wound irrigation and disinfection.

## KERICLEANZ IN ACTION

A severe pressure wound was treated with KeriCleanz and a super absorber dressing. The wound showed major healing in 2 months and was nearly closed by 3 months—no surgery needed.
