The Releasable-Abdominally-Integrated-Drop -or- RAID V2 Kit (available in Basic, Basic with Combat Gauze®, Basic with Celox™ Gauze, Advanced, and Advanced with Celox™ options) is designed to meet the need for an individual first aid kit which provides the end user several options for carrying the essential life-saving equipment for point-of-wounding and self-aid/buddy-aid to address the leading causes of potentially preventable death in a tactical environment.

Shaw Concepts RAID V2 Pouch's unique take on the industry standard hanger combined with utility of fanny pack allows the end user to decide how to wear it based on their need to access its contents during self-aid and/or hand off the pouch to others for buddy-aid.
