# SMRT™ TASK TRAINER - TRAUMA TABLE - LITTER VARIANT

## *STRATEGIC MEDICAL RESEARCH & TRAINING™*

The SMRT™ Hyperlite Trauma Table is the solution to your hemorrhage control training needs. This system allows for unsurpassed realistic, high-pressure simulated bleeding that is compatible with the full suite of SMRT-simulated wounds.

This patent system collects, filters, warms, and delivers high-pressure simulated blood to a full-sized manikin. Utilize your existing manikin or human simulated casualty by applying SMRT's role-player wounds to create an ultra-realistic, high fidelity hemorrhage control task trainer.

The Litter Variant is ideal for field training in limited resources areas.

**This model attaches to your current litter and litter stand system.**

The innovative and wearable SMRT™ Moulage Task Trainers from Strategic Medical Research & Training™ create an unmatched experience of realism featuring realistic moulage and active bleeding across a wide spectrum of woundings and interventions. Made with durable materials and designed for a "one size fits most" range of limb and body sizes, the SMRT™ Moulage Task Trainers are engineered to work with live role players as well as to augment existing simulation systems—while allowing flexibility in placement and utilization. All SMRT™ Moulage Task Trainers work with SMRT™ Trauma Tables, SMRT™ Bleeding Systems, and common hydration systems, making them standalone and ready to use, while also allowing ease of integration into existing training systems. Utilized by Military, Law Enforcement, EMS, and Hospitals to create unsurpassed realism in hemorrhage control training, SMRT™ Training Aids are realistic, cost effective, highly mobile, durable, and low maintenance.

*Litter and Litter Stand not inlcuded*

## FEATURES/SPECIFICATIONS

- Unsurpassed realism in hemorrhage control training
- Trauma Table - Litter Variant is compatible with other SMRT™ Task Trainers
- Up to eight (8) bleeds at one time
- Recirculates and warms simulated blood for realism
