

NARMD® CLASS A FIRST AID KIT

Compliant with ANSI/ISEA Z308.1-2021 Class A standards.

Treat Common Workplace Injuries for 1 - 25 People

Be prepared for everyday workplace injuries with our **Class A First Aid Kit**, designed to meet essential first aid needs across a wide range of environments. Built for reliability, visibility, and ease of use, this kit provides all the foundational supplies required for treating common injuries such as minor cuts, burns, abrasions, sprains, and basic bleeding control.

Engineered to comply with **ANSI/ISEA Z308.1-2021** Class A standards, every component is carefully selected to support quick response during routine incidents. Clearly labeled compartments and durable construction ensure items are easy to identify and access when seconds matter.

Perfect for offices, retail spaces, light-industrial settings, vehicles, and remote work locations, this kit delivers dependable protection and peace of mind wherever work happens.

FEATURES

- **ANSI/ISEA Z308.1-2021 Class A compliant** — includes essential supplies required by the latest national standard.
- **Durable, weather-resistant case** — protects contents from dust, moisture, and workplace conditions.
- **Easy-access organization** — labeled sections make locating supplies fast and intuitive.
- **Compact, versatile design** — ideal for mounting on walls or storing in vehicles, cabinets, or workstations.
- **Workplace-ready** — crafted for offices, warehouses, schools, hospitality, construction trailers, and more.
