

TOMMANIKIN REPLACEMENT NECK SKINS - NON-BLEED

(10 PK)

The TOMManikin® Replacement Neck Skins Non-Bleed (10 pack) features 100% skin tone silicone with dark red simulated tissue layer visible upon dissection. TOMManikin® simulators provide the ability to enhance training in Tactical Combat Casualty Care (TCCC) from Point of Injury to transfer of higher care. The skin can also be used for TOMManikin®/TAMI chest tube insertion sites.
