

LOGGING FIRST AID & TRAUMA KIT (HARD CASE)

"By many measures, logging is the most dangerous occupation in the United States."

"Logging operations are often remote from any emergency medical care. Properly administered first aid can be a major factor in minimizing even life-threatening injuries." - OSHA.org

The Logging First Aid & Trauma Kit from North American Rescue® is designed as a portable First Aid Kit for the workplace that exceeds OSHA Standard Number: 1910.266 App A - First-aid Kits (Mandatory) for the logging industry. Packaged in a durable dual-latched hard case that is easily transported to the patient's side, this kit offers the ability to treat logging environment injuries with the added benefit of being able to control major bleeding from traumatic injuries with the C-A-T® Tourniquet, the fastest, safest, most effective prehospital field tourniquet on the market today.

FEATURES/SPECIFICATIONS

- Rugged case designed for use in the harshest of conditions
- Modular system featuring a rugged storage organizer in the lid and removable nylon pouches with easy-to-read treatment labels (Meets Type IV ANSI Container)
- Fast open dual-latch closure system allows for rapid access while keeping contents secure
- Able to treat the most common job site injuries with the added benefit of being able to control major bleeding with the safest and most effective Tourniquet on the market
- Designed with mobility in mind, the kit can be easily carried to the patient's side
