

CRITICAL ENVIRONMENT EMERGENCY KIT - CREEK

No matter where your adventure may take you, the CREEK has you covered.

Tending to an injury during an outing can be tricky. There are many potentially hazardous and injurious elements to keep in mind. Further stressing your situation is the possibility of not being able to reach proper medical attention. The Critical Environment Emergency Kit (CREEK) and CREEK-Enhanced can help you deal with any potential injury or sickness you encounter while in the great outdoors.

Protect critical gear from water - keep your first-aid kit dry, organized, and in reach on any outdoor adventure can be challenging. In order to provide our customers with a sealable, water and dustproof platform we have partnered with Nite Ize®, an industry leader in providing solutions to the adventurer, to do just that. Their Runoff® Packing Cube utilizes durable TPU construction with RF welded seams and tested dustproof and waterproof to IP67 standards (withstands submersion one meter deep up to 30 minutes).

Nite Ize® Runoff® packing cube keeps your first-aid kit dry
