

SORITE® DEFENSE CLEANSE

When it has to work, it's SoRite®

Pepper spray doesn't just burn—it lingers. In your eyes, on your skin, in your clothes. SoRite® Defense Cleanse was built to end the suffering fast. Whether you're a police officer, correctional officer, civilian carrying for self-defense, or someone who just caught the wrong end of bear spray on a hike—this is the relief you've been waiting for.

This isn't some minty wipe pretending to help. It's a serious, science-backed solution that breaks down capsaicin oil found in OC (pepper spray), CS (tear gas), CN (riot control agents), PAVA and even bear spray. Built around SoRite's proven W.A.R.P. protocol (Wipe. Apply. Rinse. Purge.), Defense Cleanse breaks down oily capsaicinoids and chemical irritants fast—so your eyes open in minutes, not a miserable 15+. We're talking 3 to 10 minutes to recover, even in high-exposure training environments. It also eliminates "afterburn" - that infuriating sensation that creeps back hours later because other products don't fully decontaminate the skin. Defense Cleanse wipes it out at the chemical level.

Non-toxic. Non-corrosive. Fragrance-free. No mixing, no PPE, no nonsense. Just open the packet, follow the steps, and feel the difference. It's safe on your face, safe on your gear, and safe on your team. This is the new gold standard in pepper spray recovery—and yes, it handles bear spray too.

When it must work, it's SoRite®. Because getting hit is bad enough. Recovery shouldn't suck too.
