

# M-FAK RESUPPLY KIT

The M-FAK, North American Rescue's Mini First Aid Kit, was designed to be the most compact, multi-use IFAK for delivering immediate critical care for penetrating, blast or other traumatic injuries. The M-FAK Resupply Kit is a convenient way to ensure that you have all of the equipment necessary to restock your nylon kit as consumable items are used. Each resupply kit comes in a resealable plastic bag for convenient storage and the label includes a checklist option so that you can note which items have been removed from the resupply.
