

NAR-S PULSE OXIMETER

The North American Rescue® Simulation Pulse Oximeter (NAR-S POX) is designed to replicate a portable finger-style probe for monitoring blood oxygen saturation. This simulator allows medical responders to gather vital signs without instructor intervention. Onboard controls allow various modes of operation to customize patient vitals. A North American Rescue Simulation (NAR-S) control tablet is required for operation. Display includes Heart Rate, SpO2, SpO2 Waveforms. Includes USB charging cable. **Does not include NAR-S control tablet.**
