

TRUECLOT® SCENARIO AND CLASSROOM BLEEDING CONTROL TRAINING KIT

The TrueClot® Scenario & Classroom Bleeding Control Training Kit is designed to teach hands on essential bleeding control skills. The kit uses TrueClot® Blood Simulant with dynamic simulated clotting, simulated hemostatic gauze, and TrueClot® Wound Packing, Chest Seal and Tourniquet Application Task trainers to mimic real hemorrhage control techniques. The included wearable trainers are designed for scenario use to perfect student technique and patient management. This kit is intended for a class size of 20-35 intermediate to advanced level students using both classroom and scenario settings for the most realistic hemorrhage control training.
