OSL OVERSIZED LITTER

Designed to safely evacuate larger patients with both comfort and ease. This design has an increased patient surface area, extra padded carrying handles, flame-retardant cover, and additional stirrups offering firmer patient support as well as better weight distribution on the floor. Like the Raven 90C, the OSL has a bi-fold configuration. The cover material is a very durable Nomex/Kevlar blend. Also, a supplemental Back Rest (not shown) to support the patient at both 90Â˚ and 45Â˚ angles may be purchased separately.

FEATURES/SPECIFICATIONS

- Certified safe-to-fly by the U.S. Air Force
- Flame-retardant cover made of a durable Nomex/Kevlar-blend fabric
