# SQUAD KIT (GEN 2)

## Designed for End-User Customization and Modernization

***Learn more* about this and other *Products with a Mission*® at *www.NARescue.com***

The Gen 2 Squad Bag is the latest innovation to the NAR® Squad Bag platform. The Gen 2 bag features about 3 in. of total width reduction and an added zipper pocket to expand or reduce internal cube space. The Gen 2 also features a 20% reduction in overall bag weight, with Laser Cut Laminate (LCL) Molle on both sides and front for additional carrying capabilities. Ultimately, end-user customization and modernization was at the forefront of the Gen 2 Squad Bag's design.

The Gen 2 can function as a fanny pack or over-the-shoulder bag, and is molle-attachable to other platforms. The bag is available in 500D Cordura Black or Coyote, and expandable up to a 56 in. waist.

The kit versions of the Squad Bag (Gen 2) feature off-the-shelf kit options to maximize your capabilities, including Basic Life Support (BLS), Advanced Life Support (ALS) and optional Hemostatic Dressing choices.

***Rear pocket capable of holding a SAM® Splint II.***

## FEATURES/SPECIFICATIONS
