DERMAQUIK® BANDAGE - SPORT & EXTREME

The DermaQuik® Sport & Extreme is designed for emergency wound closure in austere environments, including wilderness activities, worksites, sports fields, and tactical medical applications. Featuring an enhanced adhesive that is 3.5 times tackier than the standard DermaQuik adhesive, it is designed to maintain secure adhesion through sweat, dirt, and movement, with wear lasting up to 7–10 days.

The needle-free wound closure device uses patented skin eversion technology to approximate wound edges without sutures or staples. Device is capable of closing a wound up to 1 inch.

Close Wounds in Seconds!
