

HYFIN[®] VENT *Chest Seal Individual*

REV112519

The HyFin[®] Vent Chest Seal from North American Rescue sets the standard for the prevention, management and treatment of an open and/or tension pneumothorax potentially caused by a penetrating chest trauma. This innovative device provides 3-vented channels that are designed to prevent airflow into the chest cavity during inhalation while allowing air to escape through the vent channels during exhalation. The 3-vent channels are designed to allow blood to escape and also provide a backup fail-safe system, as even if two of the three channels become obstructed, the vent is designed to remain fully operational.

Advanced hydrogel technology provides superior adhesion as the HyFin[®] Vent Chest Seal is specifically formulated to overcome adverse conditions in austere environments where the casualty may be covered in blood, sweat, body hair, or other environmental contaminants when a reliable chest seal is mandatory. Packaged in a more compact, rugged, easy-to-open foil pouch, each chest seal also includes a gauze pad to wipe the wound surface prior to application. The HyFin[®] Vent Chest Seal has a large red pull tab for single-step peel-and-apply application, while the transparent backing facilitates easy placement over the wound area, conforming to the patient's chest.

NAR packages each chest seal using its signature Red Tip Technology[®] red tear notches to ensure high quality performance.

Features:

- Designed for the prevention, management and treatment of an open and/or tension pneumothorax potentially caused by a penetrating chest trauma
- New, more compact packaging
- Patented, new design with 3-channel pressure relief vents
- Advanced adhesive technology for a superior seal in the most adverse conditions, including sweaty or hairy casualties
- Easy-to-grip, large red tab for single step, peel-and-apply application that allows for the burping of the wound if necessary

Specifications:

- Device: H 6 in. x W 6 in. (excluding tab)
- Packaged: H 4.625 in. x W 7.5 in. x D 0.1 in.
- Weight: 1.37 oz
- U.S. Patents: 7,504,549 & Patent(s) Pending

HyFin[®] Vent Chest Seal Individual
