

NAR-4™ AID KIT

REV081720

Ergo-Dynamic, Durable and Functional Solution for Tactical Healthcare Professionals

The constant challenge of striking a balance between the increasing amount of equipment carried into battle and the need to optimize performance is the impetus behind this low-profile, load carriage platform for Tactical Healthcare Professionals.

The NAR-4™ Aid Kit is an ergo-dynamic, durable, functional solution that supports Tactical Combat Casualty Care equipment standards. The NAR-4™ features a modular system with 5 removable nylon bags that can be configured to carry airway tools, IV equipment & hemorrhage control gear.

The slimline outer bag can be carried as a low-profile backpack using shoulder straps which are stowed away until needed or pre-rigged to attach directly to body armor using four rapid attachment straps.

Specifications:

- Cased Closed:
H 19 in. X W 15 in. X D 7 in.
- Weight: 12 lb 8.3 oz
