M3 Level III+ Ballistic Plate Armor

The M3 (Level III+) Series of ballistic plates from North American Rescue are NIJ 0101.06 level III certified stand-alone. The M3 also stops special, non-armor piercing threats, such as the Winchester Ranger and 7.62x39 MSC. The positive buoyancy of the M3 plates** provides users in waterborne or maritime environments added support and flotation, while a rigid polycarbonate backing gives superior blunt force trauma protection. Each M3 Series plate* comes equipped with Radio Frequency Embedded Verification (RFEV) tracking for inventory management along with an industry first 7 year warranty. **Applies only to certified plate sizes.
