

T2 MCIM KIT *Mass Casualty Incident Management*

Impressive incident
command solution so
medical triage can
begin immediately

Comprehensive Triage System Ideal in Disaster Response...

Managing the chaos is the first order of business during a mass casualty event. For maximum success in meeting this challenge, North American Rescue's T2™ system contains user-friendly tools for every aspect of the new uniformed model for disaster triage (SALT).

As the premier product in the NAR T2™ system, the T2™ MCIM Kit offers these tools in a convenient pack that is lightweight, modular and man-portable. This impressive incident command solution gives users the structure they need so medical triage can begin immediately.

Four T2™ Triage Officer Kits with NAR T2 Tags® and casualty-count cards are included. One T2™ Command Kit with commander, incident response, Blast/WMD scene commander, and patient-tracking boards is also included. Plus, the kit has a SALT flowchart for ready reference.

The T2™ MCIM Kit is ideal for disaster response, field hospitals and military troop concentrations.
