**FOR IMMEDIATE RELEASE**

**North American Rescue Donates Firefighter Survival Equipment to  
Boiling Springs Fire District**

*Greer, SC (September 17, 2010)* – This month North American Rescue is donating more than \$20,000 in innovative Rapid Intervention Team (RIT) Firefighter Survival Equipment to their own Boiling Springs Fire District. The equipment donated includes 75 Firefighter Survival Kits, 75 Bail Out Kits, 10 Roof Rescue Kits, and 18 High Anchor Kits.

The VooDoo® line of Firefighter/RIT Survival Gear was designed to overcome the factors of survival stress and developed to decrease firefighter mortality. By carrying the least amount of equipment with the most versatile number of applications, firefighters are better equipped to successfully execute a rescue while operating in unpredictable and unforgiving situations on the fireground.

Firefighter Survival Kits, comprised of wire cutters, knives, harnesses, and a variety of special cords, ropes, and carabiners, can accomplish a wide range of rescue operations with minimal equipment. Bail Out Kits allow for firefighters to bail out under extreme circumstances while maintaining control of their descent. Roof Rescue Kits make it possible to perform multiple simultaneous rescues via roofs, balconies, or windows, allowing rescuers to access places outside the reach of ladders. High Anchor Kits enable the hoisting and lowering of victims with fewer personnel and are specially designed for rapid set up and deployment.

This gear will better equip the firefighters with the tools needed for a means of egress from multi-story structures and other numerous lifesaving interventions in times of entrapment and distress. The NAR representatives responsible for spearheading this donation are President Samuel D. Wyman III, CFO Dean Bugner, COO Jim Carino, and Director of Non-Military Products Brent Bronson.

“We’re honored to have the opportunity to support the brave first responders of the Boiling Springs Fire Department. It’s great knowing that their service plays an important role in the safety of our community,” said Samuel D. Wyman III, President of North American Rescue. “In keeping with the passion of our business, we have a sincere desire to see this donation of firefighter survival gear help increase their survivability in the line of duty so that they can return home safe to their families.”

North American Rescue, LLC, based in Greer, South Carolina, has enjoyed the honor of serving their country, community, and customers for over a decade. By providing innovative casualty care solutions to first responders, health care professionals, and security forces at home and abroad, NAR is leading the fray to decrease preventable death on the battlefield, whether it be a foreign combat zone or the streets of America.
