STOP THE BLEED®

Stop the Bleed

American College of Surgeons

“ The only thing more **tragic** than a death... is a **death that could have been prevented** ”

STOPTHEBLEED.org | 833.472.1163

Just like with
CPR, a civilian
familiar with basic bleeding
control techniques is equipped to
save a life when seconds matter...

STOP THE BLEED® Training
helps educate and empower
individuals to take life-saving
action during a bleeding emergency
and will help drive the goal of
eliminating preventable death
from bleeding. Together with the
products found in this catalog,
equip yourself to assist in an
emergency and potentially

Save More Lives!

Stop the Bleed

American College of Surgeons 

The **STOP THE BLEED®** campaign
was initiated by a federal interagency
workgroup convened by the National
Security Council Staff and The White
House. The purpose of the campaign
is to build national resilience by better
preparing the public to save lives by
raising awareness of basic actions to
stop life threatening bleeding following
everyday emergencies and man-made
and natural disasters.

The American College of Surgeons is a scientific and educational organization of surgeons that was founded in 1913 to raise the standards of surgical practice and improve the quality of care for surgical patients. The College is dedicated to the ethical and competent practice of surgery. Its achievements have significantly influenced the course of scientific surgery in America and have established it as an important advocate for all surgical patients. The College has more than 82,000 members and is the largest organization of surgeons in the world. For more information, visit www.facs.org

STOP THE BLEED® Cabinet (#84-0069)

Durable clear-faced polycarbonate cabinet to keep life-saving equipment in an easy-to-access location. Easily mounts to any wall to provide both physical and environmental protection for medical equipment.

STOP THE BLEED® Station

If you work in administration or human resources at a school, office, community center, place of worship, or another public place, you understand the need to have life-saving tools and the importance of creating peace of mind like installing automated external defibrillators (AEDs) for quick access. Ideally, these wall-mounted units should be placed next to each AED you have installed, but even if you need to start small, the important thing is to start now. The station is a durable, clear polycarbonate cabinet that can be mounted in a populated area for quick and easy access.

C-A-T® Tourniquet Stop the Bleed

American College of Surgeons

- Proven **100% effective** to **stop bleeding** in both **upper & lower extremities** by the U.S. Army's Institute of Surgical Research
- **Custom branded** with the **ACS** logo
- Fielded by **every branch** of the **U.S. Military**
- Reinforced **windlass clip** and highly visible **security tab** includes a **writeable area** to record the time of application
- 37.5 inches when opened
- 2.7 oz.

C-A-T® TOURNIQUET

COLOR	ITEM #
Rescue Orange	84-0002
Trainer Blue	84-0001
Tactical Black	84-0000

The Gen 7 C-A-T® Tourniquet utilizes a **durable windlass system** with a **patented free-moving internal band** providing **true circumferential pressure** to the extremity. Once adequately tightened, bleeding will cease and the windlass is locked into the windlass clip. A **hook and loop windlass retention strap** is then applied, securing the windlass rod to prevent dislodgment during movement. The C-A-T®'s **unique dual securing system** avoids the use of screws and clips which can become difficult to operate under survival stress or where fine motor skills are compromised.

North American Rescue®, LLC (NAR®) is pleased to be the **American College of Surgeons STOP THE BLEED® Program** vendor.

With a long history in pre-hospital medicine spanning over two decades, NAR® is uniquely positioned to bring their market experience, kit building capability, and eCommerce platform to support the ACS's marketing endeavors. The successful launch of the **new eCommerce platform**, as of January 1, 2022, offers advantages to ACS customers through a **broader range of product offerings**, a custom ACS branded C-A-T® Tourniquet, enhancements to the shopping experience, a dedicated customer service team, and more. We look forward to seeing the ACS program grow, new students complete their training, and ultimately see **more lives saved** with these valuable tools.
