COMBAT PROVEN ADVENTURE READY

Be prepared wherever you are...

Whether caused by explosives, bullets, vehicle accidents, boat propellers, surfboard fins, spear guns, shark bites, coral scrapes or bike spills, ***trauma is trauma and must be treated with speed using the proper equipment to stop the bleeding and save a life.***

Nobody understands this better than leading Military medical equipment provider, North American Rescue® (NAR®). ***Since 1996, NAR® has been dedicated to decreasing preventable death by providing the most effective and highest quality mission critical medical products*** to our military, federal agencies, civilian law enforcement, EMS and pre-hospital life savers. We design, develop and test these products based on the military's Tactical Combat Casualty Care (TCCC) guidelines, Rescue Human Factors® engineering, evidenced based medicine and an in-depth understanding of the requirements of our valued customers.

For the past few years we have been ***committed to the process of better understanding the potential medical risks, needs and criteria for those engaged in active Outdoor Adventure Sports.***

During this investigation, we "talked trauma" with professional and enthusiast adventurers, expeditionary guides and resort

activity coordinators that participate in activities/events ranging from diving, big wave surfing, fishing, kayaking and boating to mountain biking, hunting, rock climbing, skiing and snowmobiling. Hearing about, witnessing and even treating the kinds of injuries likely to occur in these scenarios, ***we have focused our experience and knowledge on developing kits that meet the diverse first aid scenarios that are encountered in a wide variety of adventure sports activities and environments.***

At the end of the day, we just want our friends to make it home safe to their loved ones so that they can tell their story. Whether it's major trauma or a minor cut, these kits will cover your needs – ensuring peace of mind on your "adventure trip of a lifetime" or simply a trip to the store. These kits provide the necessary tools to save your own life or a friend's life. Accidents happen. When you're in the middle of the chaos it's too late to plan. Ask yourself today, "What is your life worth?"

Remember, life is full of the unexpected...

Understanding your GEAR...

Get to know the innovative medical gear that sets our Trauma Kits apart from other First Aid products on today's market:

C-A-T® Combat Application Tourniquet

Quickly controls life-threatening extremity bleeding and is the official Tourniquet of the US Army

QUIKCLOT® Hemostatics

The simplicity of gauze impregnated with kaolin, the same advanced hemostatic used by the US Military to control severe bleeding

HYFIN® VENT Chest Seals

Advanced adhesive technology designed in a convenient Twin Pack to provide a superior seal when treating entry/exit wounds or multiple penetrating injuries

Tourniquets & Accessories

C-A-T® Combat Application Tourniquet Gen 7

- **Single route buckle** decreases application time to help decrease blood loss, allows for slack removal for proper TQ application
- **Applied same way** to both upper and lower extremities
- True **one-handed tourniquet**
- Includes **reinforced** windlass, stabilization plate, windlass clip and writeable windlass security strap
- **Scientifically proven** 100% effective in occluding blood flow in both upper and lower extremities by the USAISR and recommended by CoTCCC
- Official Tourniquet of the U.S. Army

**The FASTEST, SAFEST,
Most EFFECTIVE
Prehospital Field Tourniquet!**
